

## COMPANY FOR SALE / LOOKING FOR INVESTORS

**TALSU TEHNIKA** is the leading regional metalworking company located in Talsi, Latvia with more than 20 years traditions in production of wide array of products for general and specific industry needs for both Latvian and Scandinavian Partners.

### Data in short:

Turnover:	1 268 636.00 EUR (2019)
Employees:	41 (2019)

### Current status:

Due to COVID 19 impact, the decision was made from 20.09.2020 to temporarily stop the production process and search for potential investors / sale of company.

Company has access to more than 30 former employees (average experience in metal processing 20 years and more) and full set of equipment to provide services on regular basis as well for single contracts.

### Main business areas:

- metalworking services – designing and machining high precision and quality metal parts;
- production of different metal equipment for wood processing, made for order special equipment, production of large-and small-sized metal products for construction and agriculture

### Main services:

- CNC turning; CNC milling, CNC gas/plasma cutting, CNC machining centre, MIG/MAG welding, sandblasting, wet paint process, heat treatment for steel, gear wheels, gear racks and sprockets production, Milling and turning services, assembling and design.
- Wood processing equipment production – horizontal and vertical band saws, disc saws, transport equipment, full conveyer lines, etc. (See attached complete list of products and services provided in 2019)

**The company accomplished export contracts for following major clients during the previous financial year (2019):**

■ **PTH Metaly OY**

Finland, [www.pth.fi](http://www.pth.fi) (CNC turning; CNC milling, welding services)

■ **LeaxBaltix**

Sweden, [www.leax.lv](http://www.leax.lv) (quality machined parts from steel, stainless steel, aluminium, welding services)

■ **Sperre Baltic**

Norway, [www.sperre.lv](http://www.sperre.lv) (quality castings processing – CNC milling, CNC turning)

■ **CH Industry**

Sweden, [www.chindustry.se](http://www.chindustry.se) (metal parts and assemblies - CNC Turning; CNC Milling, welding services)

**Facilities and equipment available:**

Land property – 1,24 ha,  
production and administration facilities – 3912 m<sup>2</sup>

Production facilities include:

- painting chamber 60m<sup>2</sup>
- outside equipment storage facility with bridge crane
- interior production facilities with telfers (cranes). Available electricity capacity – 500A, Central sewage and water supply service, local central heating system.
- Separate apartment building (626m<sup>2</sup>) with sales area (208m<sup>2</sup>) with land plot (2437 m<sup>2</sup>).

# TALSU TEHNIKA PRODUCTS AND SERVICES

## GEAR WHEELS / SPROCKETS

Conical or cylindrical gear wheels and gear racks. Sprockets with wide range of modules and diametres.

► **Conical gear wheels:**

Diameter, max. mm ..... 630  
Module, mm ..... 1 - 10

► **Cylindrical gear wheels:**

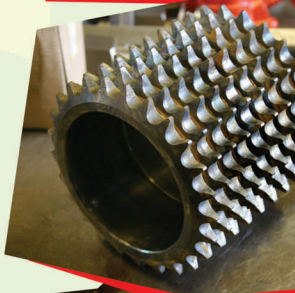

Diameter, max. mm ..... 630  
Module, mm ..... 1 - 10

► **Gear racks:**

Module ..... up to 5  
Length, max, mm ..... 4000

► **Sprockets:**

Diameter max. .... 630  
Module ..... 12,7 / 15,875 / 19,05 / 25,4

**TALSU TEHNIKA**  
METALAPSTRĀDE • KOKAPSTRĀDES DARBAGĀLDI

## METAL CONSTRUCTIONS

Large- and small-sized metal products for construction and agriculture:

- beams,
- railings,
- gates,
- fences,
- indoor and outdoor stairs
- different types of fastening parts.

Certified welders and quality control. Parts can be processed with metal shot blasting, galvanizing and painting.

**TALSU TEHNIKA**  
METALAPSTRĀDE • KOKAPSTRĀDES DARBAGĀLDI

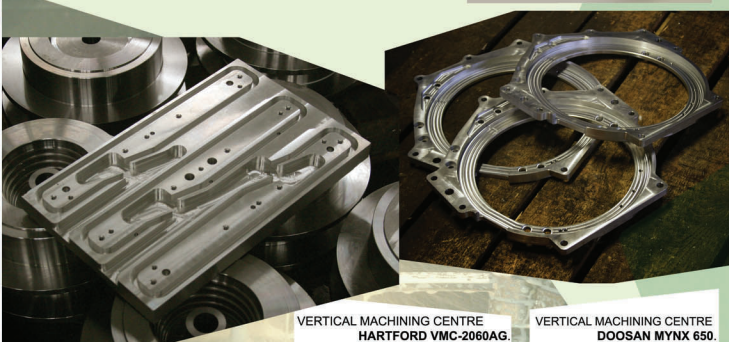

## CNC MILLING

MACHINED (MILLED) PARTS.

Thanks to modern and high-quality manufacturing facilities, we can produce highly complex parts quickly and efficiently. Simple or complicated (2D or 3D milling).

- Max. part size:.....2000 x 800 x 600.
- Tolerances, mm..... +/-0,01.

Highly educated and motivated staff can handle any complexity tasks and guarantee highest quality.

VERTICAL MACHINING CENTRE  
HARTFORD VMC-2060AG.  
4-axis milling machine.

VERTICAL MACHINING CENTRE  
DOOSAN MYNX 650.  
3-axis milling machine.

## CNC TURNING

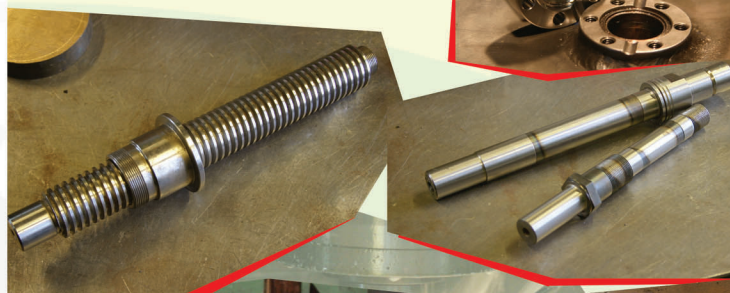

TURNED PARTS.

A wide range of turning machines allow us to say that we can meet any customer's wish for turning work - from ordinary universal turning machines to modern CNC machines with active tools.

Universal machines we use for a small amount orders that do not require high accuracy, but high-volume, high-precision work is done with modern CNC controlled machines.

Maximum workpiece dimensions, mm:

- diameter: 400
- length: 1000

# TALSU TEHNIKA PRODUCTS AND SERVICES

## WELDINGS / ASSEMBLIES

- ▶ Engineering, manufacturing and assembly of non-standard equipment and parts.
- ▶ Assemblies of different complexity.
- ▶ Certified welders and quality control.

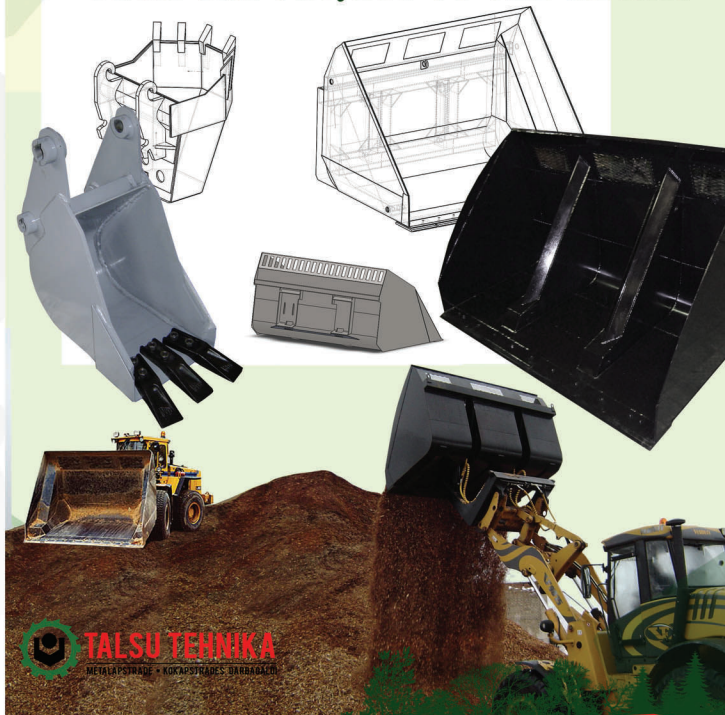

**TALSU TEHNIKA**  
METALAPSTRĀDE • KOKAPSTRĀDES DARBAGĀDI

## BUCKETS

- ▶ Universal buckets
- ▶ Buckets for light material,
- ▶ Buckets for digging,
- ▶ Buckets for sawdust and wood chips
- ▶ Simple ones or with built in hydraulics

FROM THE PROJECT TO THE METAL!

**TALSU TEHNIKA**  
METALAPSTRĀDE • KOKAPSTRĀDES DARBAGĀDI

**We produce machinery since 1993!**

**TALSU TEHNIKA**  
METALAPSTRĀDE • KOKAPSTRĀDES DARBAGĀDI

Machinery for firewood: machinery and production lines for making firewood.

**We produce machinery since 1993!**

**TALSU TEHNIKA**  
METALAPSTRĀDE • KOKAPSTRĀDES DARBAGĀDI

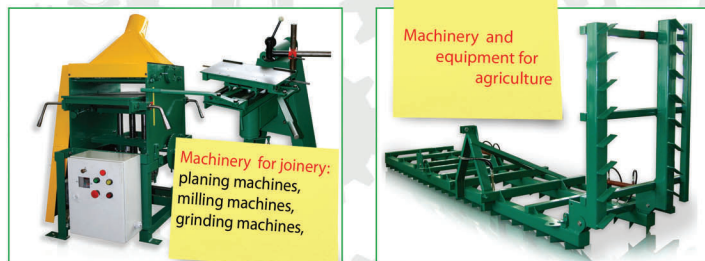

Machinery for saw-mills: level band-saws, disc-saws, complete production lines - from round beam to ready boards, sharpening machines,

Machines for juice preparation: juice pressing machines, fruit choppers, machinery for production lines or for home production.

Machinery and equipment for agriculture

Machinery for joinery: planing machines, milling machines, grinding machines,

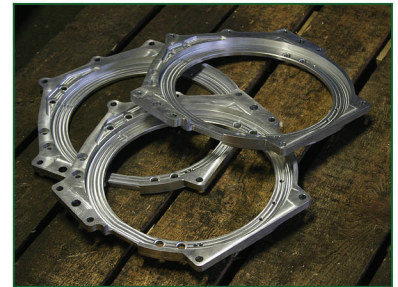

# METALWORKING SERVICES

Since 1993!

## CNC turning (Doosan Puma 240M):

Diameter max, mm .....400  
Diameter max, mm from suport....350  
Length, max, mm .....1000  
Tolerances, mm ..... +/-0,01

## CNC milling (HARTFORD MERCURY VMC-2060AG):

Length max, mm .....2060  
Width max, mm .....800  
Height, max, mm .....660  
Tolerances, mm ..... +/-0,005

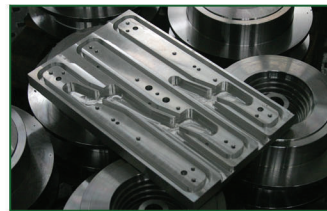

## CNC milling (Doosan Mynx 650):

Length max, mm .....1300  
Width max, mm .....600  
Height, max, mm .....400  
Tolerances, mm ..... +/-0,01

## CNC gas/plasma cutting:

Thickness max, mm .....150  
Table, m ..... 6x2,3  
Tolerances, mm ..... +/-0,025

## CNC machining centre:

Length max, mm .....500  
Width max, mm .....500  
Height, max, mm .....500  
Table turning .....5<sup>0</sup>  
Tolerances, mm ..... +/-0,02

## Gear wheels(conical and cylindrical):

Diameter max, mm .....1000  
Module ..... 1 - 10

## Gear racks:

Module , mm .....till 5  
Length, max, mm .....4000

## Sprockets:

Diameter max, mm .....630  
Module ...12,7; 15,875; 19,05; 25,4

**We are also strong in welding,  
assembling, steel heat treatment.**
