

# LATVIAN ENGINEERING INDUSTRY AT TECH INDUSTRY 2025

November 27-29, 2025

# 27-29 November 2025 Latvia, Riga International Exhibition Centre

**21,000+ visitors** 

270+ companies

25+ countries

#### The biggest annual industrial exhibition in the Baltic region!

Visit Riga and join global industry players as they gather in one place to showcase their metalworking equipment, mechanical engineering technologies, automation solutions, welding tools, robotics, electrical equipment, electronics, services and more.

For those looking to develop co-operation with companies from engineering industry of Latvia and other Baltic countries: <a href="https://www.techindustry.lv/en">www.techindustry.lv/en</a>

### **Spotlight on Latvian Engineering Industry!**

Be sure to visit the Latvian National Stand - Manufacturers' Zone at the exhibition – a unique opportunity to connect with more than 40 leading local companies that are participating as exhibitors in one convenient location. In addition, over 140 Latvian manufacturing and engineering companies will be attending Tech Industry and available for meetings in the exclusive Business Lounge!

This is your chance to tap into Latvia's rapidly growing industrial landscape - more detailed information about the companies representing Latvia's industrial sector at this year's exhibition can be found in this brochure. All MASOC members find in our database: <a href="https://www.masoc.lv/en/members/member-database">https://www.masoc.lv/en/members/member-database</a>

## **Register Now for the B2B Matchmaking Event!**

As part of the fair, don't miss the International B2B Matchmaking Event – a premier networking opportunity to connect with business partners from Latvia and Baltic Sea region. Whether you're a sourcing specialist, developer, manufacturer, distributor, or investor, this event is your gateway to new ventures and collaborations.

Start building partnerships on-site - connect with companies showcasing the latest innovations in the industrial sector: <a href="https://www.b2match.com/e/international-buyers-b2b-tech-industry">https://www.b2match.com/e/international-buyers-b2b-tech-industry</a>

Opportunity to meet potential partners, discover new business prospects, and explore the wealth of manufacturing expertise that Latvia has to offer!

LV-3	IZITT VIOIONOIA						<b>I</b>						ш	٧	٧		Y

Arnis Balodis +371 26520970 info@metal.lv Small and flexible family company involved in precise metal working, mostly operating as subcontractor who is specialized in SHEET METAL PROCESSING and MACHINING by producing precise from simple complex and sub-assemblies components, and final products made of steel, stainless steel, aluminium and other materials for different industries incl. OFF-SHORE, FOOD, WOODWORKING. **MECHANICAL** ENGINEERING, CONSTRUCTION and other industries. We are able to carry out very small as well as large scale (up to 6700x3600x2000mm) projects by using CNC Laser cutting, CNC water jet cutting, CNC sheet metal bending, CNC roll bending, CNC tube bending, NC shearing, NC sawing, CNC turning, CNC 9-axis multifunctional turning and CNC milling machinetools.

**ADK** www.adk.lv Stand LV-21 (Hall 1)

Toms Ansens +371 26128701 toms@adk.lv ADK is the largest converter of abrasive products in the Northern Europe with 29 year experience in the market. Represents major manufacturers - 3M (USA), VSM (Germany), Deerfos (South Korea). Various standard and non-standard abrasive belts, discs and cylinders produced in Latvia for local and global metalworking industry. Distributes 3M personal protective equipment for metalworking workers - welding, breathing, vision, hearing, body protection. Industrial belt grinding machine Nord Grinders® manufacturer.

**AERONES ENGINEERING** www.aerones.com

Stand LV-3 (Hall 1)

# **AERONES**

Valdis Ilguns +371 29284379 valdis.ilguns@aerones.c om Aerones is the global leader in robotic wind turbine inspection, maintenance, and AI-driven solutions, delivering faster, safer and more effective services with patented robotics technology.

The innovations that Aerones deliver to the wind industry promote intelligent predictive maintenance of wind turbine blades and towers, helping to maximise efficiency of wind assets and lower operating costs.

Aerones customers represent over 50 percent of the global wind power capacity, including leading operators such as NextEra, GE, Vestas, Enel and Siemens Gamesa.

Valts Jakubovičs +371 26135853 valts.jakubovics@applyit.lv APPLY is an experienced developer of customized Artificial Intelligence (AI) and computer vision solutions. We use the latest AI and computer vision innovations to help businesses grow and solve complex challenges more efficiently.

#### Services & Expertise:

- Automation of manufacturing processes;
- Automated visual quality control systems customized for diverse industries (industrial manufacturing, retail, healthcare, logistics);
- Robotics, Mechatronics and Prototyping we add an intellectual component to existing manufacturing equipment, providing full-cycyle robotics and mechatronics services. Intelligent and autonomous devices by combining programmable controllers, sensors, and mechanical systems;
- Custom solutions for Optics and Microscopy. Automated sample detection, object classification and data interpretation by combining innovative optics with AI computer vision;
- Al consulting on Al solutions and implementation, delivering business case analysis. Providing workshops and trainings to empower your teams with practical Al knowledge.

**BALTMA** www.baltma.lv

Stand A-9 (Hall 2)

Alvis Sokolovs +371 29266503 alvis.sokolovs@baltma.lv Since 2005, we have demonstrated our expertise in Swiss Type turning, providing services to clients in Central and Northern Europe.

Today, in addition to CNC Swiss Type turning, our range of services includes, CNC Turning, CNC Milling, part processing, assembly of mechanical units, technical drawing preparation, and prototyping across various materials.

CNC SAAN

Stand LV-10 (Hall 1)

www.cncsaan.lv

Salvis Pīļups +371 26555009 salvis@cncsaan.lv CNC SAAN's core business is CNC machining services. The company was founded in 2012 and offers a wide range of turning and milling operations including 5-axis turning and milling as well as heavy-duty machining.

According to customer drawings the company produces components of various specifications and is able to provide a full cycle of part production including services such as heat treatment, surface treatment, assembly, welding and painting in cooperation with our company's outsoursing partners.

We focus on small and medium series production, and the company's equipment is suitable for the production of medium and large-sized parts. Company have 23 different CNC machining centers.

Our main industries are industrial equipment, agriculture, marine, processing equipment, offshore and energy industry, mining and defense industry.

Jurģis Vašuks +371 22187993 jurgis.vasuks@compor.lv COMPOR manufactures profiles and constructions from fiberglass composite. It is a durable, versatile material that is also suitable for use in aggressive environments: bridges, ports, roads, railways, industry, energy and hydraulic structures.

Main products – profiles are produced by pultrusion process. A profile of a certain shape is made by pulling through a heated form glass materials impregnated with thermosetting resins. The end product contains up to 70% fiberglass filler and does not require additional processing. Additionally, the length of the profile is not limited and is usually depends upon customer's needs as well as transport options.

CW TECHNICS www.cwtechnics.lv

Stand LV-11 (Hall 1)

Aleksandrs Meņščikovs +371 20254004 a.menscikovs@cwtechnics.lv CW Technics is a production company specializing in engineering, manufacturing, and installation of complex equipment made from stainless steel, duplex, super duplex, titanium, and nickel alloys.

Our expertise covers pipe systems, pressure vessels, storage and process tanks, reactors, heat exchangers, boilers, scrubbers, mixers, bunkers, and other custom-designed equipment.

**DESIGN TREE** www.designtree.lv

Stand LV-20 (Hall 1)

Matīss Irbe +371 28673329 matiss@designtree.lv Design Tree is an engineering company specializing in the design and manufacturing of equipment and machinery for industrial companies. The company's main focus is on custom production equipment tailored to specific customer needs – ranging from individual machines to complete production lines.

The company covers the entire development cycle – from idea and concept design to detailed engineering, prototyping, final production, and equipment commissioning.

Krišjānis Kapcjuhs +371 25602898 krisjanis.kapcjuhs@eastmetal.lv Metal components for crane and wind generators, metal parts for children's playgrounds, lifting and transport equipment, transformer components (tanks), waste shredders, excavator frames and components, snowblower frames and components, woodworking workbench and hydraulic press constructions.

#### **ECOHEAT TECHNOLOGIES**

www.ecoheatholdings.lv

Stand LV-34 (Hall 1)

Mārtiņš Vītols +371 25616180 trade@ecoheatholdings.lv Company specializing in the design, manufacturing, and installation of biomass boilers, modular boiler houses and biomass heating systems. Based in Jelgava, the company offers turnkey solutions for central heating and industrial applications across Europe, utilizing renewable energy sources such as woodchips, bark, pellets, and wastederived fuels. The company also provides steel subcontracting services for various industrial applications. Since 2025, the company has also been manufacturing cast iron components and mechanical parts at its Liepāja facility, offering products such as hydraulic cylinders, castings for water supply and sewage systems, as well as for machinery manufacturing.

EMJ METĀLS

www.emjmetals.lv

Stand B-1 (Hall 2)

Agris Punculs +371 26661153 agris@emjmetals.lv Subcontractor of sheet metal cutting, bending services. Final product- prefabricated sheet metal parts made on customer order. Additional services (welding, surface treatment, machining) upon request and availability. For defence industry full production cycle according standarts (cutting, bending, welding, painting). Including ballistic steel structures. Laser cutting- with table layouts up to 8150\*2600 mm with bevel cut, drilling and threading option. Bending- up to 8000,- mm with 1000,- ton power. Plasma cutting- table layout up to 4000\*20000,- mm

Sanda Zeimale +371 22053499 sanda.zeimale@jauda.com Energofirma "JAUDA" was established in 1961. Nowadays it is one of the largest producers of electrical equipment in the Baltic States. Since the beginning JAUDA has produced products for energetics and electrification including compact transformer substations, low/medium voltage equipment and steel constructions.

Jauda offer control cabinets, enclosures, electric line elements, towers, masts and subcontracting of metalworking services - punching, bending, panel bending, laser/gas cutting, powder coating, mechanical/electrical assembly.

**ENERGOLUKSS** 

www.energolukss.lv

Stand LV-27 (Hall 1)

Miķelis Caunītis +371 67542223 mikelis@energolukss.lv Energolukss is the leading full-service supplier of energy-efficient and sustainable backup and guaranteed power supply solutions in Latvia since 1997 - generators, UPS, batteries, charging equipment for electric cars, solar energy, wiring components and others.

**EXIGUM** 

www.exigum.com

Stand LV-4 (Hall 1)

Kārlis Krūmiņš +371 26577981 karlis.krumins@exigum.com At EXIGUM, we excel in delivering high-precision CNC machining solutions tailored to meet the exacting demands of modern industries. With our equipment and a team of skilled engineers, we are partners in turning complex designs into reality.

Able to produce high-complexity parts starting from prototypes to high-volume batches. Produced part dimensions from 20mm to 1000mm in dimensions for all operations.

SIA "FILTRI" is the leading locally-owned manufacturer of air filters in Latvia, backed by over 20 years of industry expertise. Since 2009, our operations have been certified in accordance with the ISO 9001:2015 quality management standard — a reflection of our commitment to continuous improvement, technical excellence, and long-term reliability.

Lienīte Bite +371 29165330 lienite@filtri.lv We specialize in the production of high-performance air filters for ventilation and dust extraction systems. Our solutions help improve indoor and environmental air quality, reduce energy consumption, enhance working conditions, and extend the service life of HVAC and filtration systems.

Our product range includes: Pocket filters; Panel filters; Compact filters; HEPA filters; Activated carbon filters; Filter cartridges; Bag filters; Filter media and more.

FONONS www.fonons.lv Stand LV-30 (Hall 1)

Juris Zvirgzds +371 29211993 fonons@latnet.lv Production of Industrial oil screw compressor with remote control, oil free water lubricated screw compressor, oil free screw blowers

- -Design of compressor, water pump and air blower systems for customer needs;
- -Industrial equipment remote monitoring and control systems;
- -Assembly of compressed air systems;
- -Installation of water pumps and air blower systems;
- -Monitoring, repair and replacement of industrial equipment.

**GOOD STEEL** www.goodsteel.lv

Stand LV-25 (Hall 1)

- -Various types of metal structures and other products;
- -Design and interior items;
- -Industrial food production equipment;
- -Design and construction;
- -Delivery and installation of manufactured products.

Artis Miklavs +371 29429734 info@goodsteel.lv We offer different types of metal processing: Welding with TIG, MIG-MAG; Cutting parts, bending; Painting, hot dip galvanizing; CNC milling and turning.

www.icssteel.eu

Ingus Sudmalis +371 29182104 ingus@icsbaltic.lv A metal surface treatment and coating company in Latvia specializing in various surface treatment services.

We offer the following services:

Electrogalvanization;

Aluminium anodizing;

Electrochemical polishing for stainless steel;

Black oxidation;

Plasma electrolytic oxidation;

Stainless steel pickling.

#### **KERAMSERVISS** www.keramserviss.lv

Stand A-4 (Hall 2)

#### **KERAMSERVISS**

Irina Ježova +371 26137928 irina@keramserviss.lv Our Products and Services:

- Refractory installation, repair, and supply of consumables for industrial boilers;
- Design, manufacturing, and maintenance of heat treatment kilns, including spare parts;
- Production and repair of wire heating elements and thermocouples;
- Manufacturing of main control boxes universal systems for measurement and automation:
- Production of preformed refractory castable
- Heat treatment of metal parts and structures, including annealing and hardening;
- Design and manufacturing of non-standard heat treatment equipment, tailored to specific customer requirements.

**KNK MEFAB** 

Stand LV-18 (Hall 1)

www.mefab.lv

Specializes in providing high-quality metal fabrication solutions, tailored to meet

Jānis Buls +371 20614341 janis@mefab.lv

unique needs of our clients.

Services: Tube laser;

Metal sheet laser;

Bending; Rolling;

Welding, TIG / MIG / Laser weld /

Spot welding / Robotwelding;

Press threading / Stud welding;

Mechanical processing;

Powdercoating;

Prototypes;

Assembly (Combining different

materials);

Delivery

# Iekārtu Rūpnīca 😚

Kristaps Dambinieks +371 29426381 kristaps.dambinieks@finieris.lv Welded steel structures with precise working. Contractor for design and manufacturing of conveyors, shutters, hoppers, platforms, and different other machine components as well as non-standard equipment and production lines. Contractor for designing, manufacturing and installation of log feeding and grading lines as well as different other handling equipment and lines for woodworking industry. Production of big size components. Manufacturing of high accuracy turning parts, shafts, axis with milling operations in one setting on nowadays equipment.

LS STEEL Stand LV-16 www.lssteel.lv (Hall 1)

Lauris Līvs +371 27660933 lauris@lssteel.lv LS Steel is a metalworking company specializing in manufacturing steel constructions and parts. Company offers steel structures manufacturing and products of various complexity and sizes.

We offer full process of metal productiondetailing of metal structures, plasma and laser cutting, welding, painting, powder painting, and on-site assembly of structure.

Production according to EXC2 and EXC3, following EN1090 standards.

**MECHANIKA ENGINEERING** www.mehanika.lv

Stand LV-32 (Hall 1)

Ilze Kiete +371 27334881 info@mehanika.lv Mechanika Engineering is a research and development (R&D) company that specializes in the development and implementation of unique automation, robotics, and machine vision systems.

We solve non-standard manufacturing challenges for which no off-the-shelf solutions exist, guiding projects from the initial idea and testing through to a fully operational machine for leading manufacturing companies in Latvia and abroad.

Uldis Klaperis +371 28778208 info@metalprint.lv Metal 3D Laser scanning Metal 3D Laser printing

Metal 3D laserprinting is a great alternative to traditional methods (metal casting and CNC machining) in all cases when there is a need to produce complicated parts or unique objects of small size and in limited quantities

**PERUZA** 

www.peruza.com

Stand LV-12 (Hall 1)

Intars Puriņš +371 67248036 intars.purins@peruza.com PERUZA - Leaders in Automation & Robotics

Peruza is a leading process engineering and equipment manufacturing company with extensive expertise in automation, robotic solutions, custom-made projects, and turnkey factories. Our clients achieve higher-quality products at lower costs.

#### Our Core Solutions:

- Fish Processing Equipment advanced technologies that streamline and optimize every stage of fish processing;
- Robotic Packing & Palletizing flexible, high-speed automation tailored to your production needs;
- Automated Warehousing & Parcel Sorting intelligent systems that maximize efficiency in logistics and distribution;
- Custom Projects & Turnkey Factories from concept to installation, fully integrated solutions built to your needs.

**POLIPRODEST** 

www.poliprodest.com

Stand LV-33 (Hall 1)

Andrejs Šveisbergs +371 29214144 andrejs@poliprodest.com Services in rubber and polyurethane reconstruction, prototyping, model designing and building, as well as restoration and manufacturing of tracked tractor wheels and stars.

Aigars Lauva +371 26067075 aigars@printpack.lv CNC parts from aluminium, steel, plastics.

Supplier of industrial plastics, packing materials, films, digital printing equipment and materials, providing specialized services as a production of parts from technical plastic, milling of aluminum, plastic, plywood and other materials, plastic cutting, knife sharpening

**PRORING LATVIA** www.proring.lv

Stand LV-28 (Hall 1)

Alfrēds Lazdiņš +371 29501133 alfreds@proring.lv We specialize in CNC machining and engine rebuilds, offering precise and reliable solutions for different industries.

CNC turning, CNC milling, flat and cylindrical grinding. We work with all types of metals, plastics, and selected rubbers, handling both prototypes and production runs upwards of 1,000 pcs.

Engine rebuilds: Complete inspection and repair of engine heads, blocks, and crankshafts, including honing, surface milling, crack testing, and other precision processes. All work is carried out to manufacturer standards using modern equipment.

**RĪTAUSMAS STEEL CONSTRUCTIONS** www.ritausmas.lv

Stand D-3 (Hall 2)

Vadims Podgurskis +371 67365266 vadim.podgursky@rs-steel.lv Sheet metal laser&plasma cutting, bending, drilling and threading; Bespoke steel structures manufacturing; MIG/MAG welding services; Robotic welding; Hot&cold rolled plates in different grades, Beams and tubes, Structural steel supply

Nauris Jansons +371 26603007 nauris@sfm.lv Producer of transformer tanks with covers and conservators, military vehicle components with manual and robotised welding.

In scope of products - mining machinery components, conveyors, coolers for power generators, industrial mixers and other welded fabrication - machine building and industrial equipment.

Full operation cycle in-house.

SILMOR

www.silmor.eu

Stand K-9 (Hall 1)

Liene Gaspažiņa +371 29618115 liene@silmor.eu SILMOR is a manufacturer of industrial components and marking products. Company offers a wide range of products and services, including membrane keyboards, graphic overlays, anodized metal signs and identification plates, direct printing on metal objects, various sealing and isolation solutions, as well as assembly of custom products. At the request of customers, provides a wide range of services, from the development of prototypes to the delivery of the final product.

SMARTTEH

www.smartteh.eu

Stand LV-29 (Hall 1)

Silva Artimoviča +371 20299021 silva@smartteh.eu SmartTEH designs and builds automated loading systems that make cargo handling faster, safer, and more cost-efficient – protecting cargo, reducing injury risk, and cutting operational costs.

Trusted by businesses in over 30 countries, SmartTEH delivers measurable value across industries including metalworking, wood processing, construction, logistics, warehousing, and beyond.

STEEL PROFI

www.steelprofi.lv

Stand LV-7 (Hall 1)

Guntis Dlohi +371 29258562 guntis@steelprofi.lv Metalworking subcontractor with large experience in stainless steel metalworking from sheet metal.

Small and medium batch production from parts to full assembly or ready product.

Jānis Šelegovskis +371 28350789 janis@marmors.lv TETRALIA is the biggest producer of screw piles and other welded steel piles in Baltic states.

Besides piles we also offer steel constructions for infrastructure builders – bridges, towers, portals, pylons and many more products. We offer small to large batch production. Robotic welding available for up to 4000mm long parts. Our production is EN1090 exc3 certified. CNC plasma and gas cutting available for parts up to 3000\*12000mm, up to 200mm in thickness.

TOGET

www.toget.lv

Stand LV-26 (Hall 1)

Dāvis Ansons +371 27276018 toget@toget.lv Since 2010, we have been the leading metal construction manufacturer in the Baltic States.

In our work, we combine the latest machine capabilities with high-quality handmade craftsmanship.

We focus on quality in production: manufacture of stairs and railings, balconies, Laser cutting, sheet bending, construction manufacturing & powder coating.

**VALPRO** 

www.valpro.lv

Stand LV-17 (Hall 1)

Mārtiņš Orskis +371 64226959 sales@valpro.lv With over 60 years of experience, VALPRO stands as one of the Baltic region's leading metalworking companies. VALPRO provides a complete product cycle - from the creation of blanks to the assembly of finished products. We are proud to offer specialized metalworking services that are rare in Latvia. One such service is deep drawing, a highly efficient metal - forming process that transforms flat metal sheets into products with complex shapes. At VALPRO, we specialize in custom-ordered parts, delivering tailored solutions that meet the highest standards of excellence.

Raivis Skobolevs +371 29242369 raivis@vrvmetals.lv During the exhibition, it will be possible to look at various materials offered by us, such as expanded, perforated and welded meshes and framing/fixing possibilities in the object.

**WEMPS** Stand LV-14 (Hall 1) www.wemps.lv

Kristians Rimkus +371 28632868 kristians@wemps.eu WEMPS is an engineering services company offering design, prototyping and manufacturing services.

We provide a full product development cycle, from the initial idea to production and certification.

ZIPPY VISION Stand LV-5 www.zippyvision.com (Hall 1)

Ieva Kulikovska +371 27770068 sales@zippyvision.com Zippy Vision is a company specializing in advanced computer vision technology, input material processing optimization and automation solutions, primarily focused on the woodworking industry. Technology provides smart scanning optimization solutions that transform the way wood is measured, sorted, and processed. From the primary to secondary processing, Zippy Visions fullcycle solutions ensure precision, minimal waste, and maximum recovery, helping sawmills get the most from every log.

Information about all member companies of MASOC in the form of searchable online database or PDF version of annual catalogue Latvian Metal Industry:

https://www.masoc.lv/en/members/member-database https://www.masoc.lv/en/members/member-catalogue
