Tech Industry 2026

November 26-28 2026

LATVIAN ENGINEERING INDUSTRY AT TECH INDUSTRY 2026

ASSOCIATION OF MECHANICAL ENGINEERING AND METALWORKING INDUSTRIES OF LATVIA
Brivibas gatve 223, Riga, Latvia, LV-1039 | Reg. No. 40008017857
+371 67554825 | masoc@masoc.lv | www.masoc.lv

GATEWAY TO THE ENGINEERING INDUSTRY OF LATVIA
INFORMATION ABOUT SECTOR'S SUB-CONTRACTIONG AND TECHNOLOGICAL FACILITIES
PARTNER SEARCH

Association of Mechanical Engineering and Metalworking Industries of Latvia was established in 1994 as an informative and consultative centre for mechanical engineering industry.

MASOC mission is to represent the interests of member companies, initiate and implement joint projects and activities with the main objective of developing international competitiveness of the sector.

Today Association unites more than 180 leading companies specialised in various branches of metal processing and mechanical engineering. Besides manufacturing companies, service providers and related companies are also among the members. Close cooperation is ensured with professional and higher education establishments, research institutes and municipalities.

THE MAIN ACTIVITIES OF THE ASSOCIATION INCLUDE:

- Representation of members' interests at national and international level
- Networking and development of commercial collaboration among members
- Maintaining of the database on technological capabilities and competences of the member companies
- Marketing, internationalisation and export promotion activities
- Co-operation with education and research institutions
- Further education and skills development projects
- Promotion of STEM and technical education among young people
- International co-operation with similar organisations in other countries.
- Support for innovation and development of new products and technologies within Mechanical Engineering Competence Centre

WE OFFER:

- Information about technological capabilities and competences of the companies
- Assistance in finding suppliers and cooperation partners
- Effective subcontracting network covering the whole range of metal processing technologies
- Single contact point for enquiries

MEMBERS CATALOGUE:

MEMBERS DATABASE:

This material has been prepared and issued within the framework of the project "Development of the Mechanical Engineering Cluster" 1.2.1.1/2/25/A/005

Co-funded by the European Union

2027 National Development Plan

INTERNATIONAL TRADE FAIR FOR MECHANICAL ENGINEERING, METALWORKING, AUTOMATION, ELECTRONICS, ELECTRICAL ENGINEERING, PRODUCTION SUPPLIES, TOOLS AND INNOVATED TECHNOLOGIES

IN THIS MATERIAL

You can find information about most Latvian manufacturers and MASOC members You will be able to meet during this international event.

TECH INDUSTRY is the biggest mechanical engineering, metalworking, automation, electronics, and new tech three-day fair and business-innovation forum in the Baltics, bringing together more than 270 companies from at least 18 countries every year.
CO-ORGANIZED BY the MASOC, Latvian Investment and Develpoment Agency, BT1 International Expo Company, Enterprise Europe Network (EEN) Latvia.

MAIN EVENTS DURING EXHIBITION

26 NOVEMBER
Official opening ceremony of Tech Industry 2026
13:00-13:30 Kipsala Exhibition Centre, Hall 2
26 NOVEMBER B2B matchmaking event
10:00-18:00 Kipsala Exhibition Centre, Hall 1 Balcony

Detailed information about all thematic events and participants You can find: **www.techindustry.lv**

LATVIAN MECHANICAL ENGINEERING MANUFACTURERS at Tech Industry 2026

AB METAL — Stand LV-2 (Hall 1)

Phone: +371 26520970
E-mail: balodis@metal.lv
web: www.metal.lv

Contact person: Arnis Balodis
Position: Sales Manager
Mob.ph.: +371 26520970
E-mail: balodis@metal.lv

Number of employees: 20
Turnover in 2025 EUR: 2 270 000

Export markets: Germany; Norway; Sweden; Denmark; Finland; Lithuania; Estonia
Certificates in use: ISO 9001; ISO 14001; ISO 45001

Business profile, products, services: Small and flexible family company involved in precise metal working, mostly operating as sub-contractor who is specialized in SHEET METAL PROCESSING and MACHINING by producing from simple to complex and precise components, sub-assemblies and final products made of steel, stainless steel, aluminium and other materials for different industries incl. OFF-SHORE, FOOD, WOODWORKING, MECHANICAL ENGINEERING, CONSTRUCTION and other industries. We are able to carry out very small as well as large scale projects.

CNC Laser cutting (up to 6250x2500mm) | CNC water jet cutting (up to 4000x3000mm) | CNC sheet metal bending (up to 4100mm) | CNC roll bending (up to 2000mm) | CNC tube bending (up to Ø50mm and lenght 6000mm) | CNC milling (5 axis up to 6700x3600x2000mm) | CNC turning (5 axis turn-mill up to Ø2000mm and length 2000mm) | NC sawing (up to Ø440m) | Tumbling and grinding

ADK — Stand A-21 (Hall 2)

Phone: +371 67600319
E-mail: adk@adk.lv
web: www.adk.lv

Contact person: Rūdolfs Kadakovskis
Position: Sales and Export Manager
Mob.ph.: +371 25672262
E-mail: rudolfs@adk.lv

Number of employees: 20
Turnover in 2025 EUR: 7 500 000

Business profile, products, services: The largest converter of abrasives in the Baltics. Industrial belt grinding machine Nord Grinders® manufacturer. Represents major manufacturers - 3M (USA), VSM (Germany). Abrasive belts, discs and cylinders are produced for metalworking. Distributes 3M personal protective equipment for metalworking workers - welding, breathing, vision, hearing, body protection.

AISIS — Stand LV-17 (Hall 1)

Phone: +371 29258420
E-mail: info@aisis.lv
web: www.aisis.lv

Number of employees: 60
Turnover in 2025 EUR: 4 000 000

Contact person: Ivars Upmalis
Position: Director
Mob.ph.: +371 29258420
E-mail: iu@aisis.lv

Export markets: Germany; Sweden; Lithuania; Estonia; Belgium; Austria
Certificates in use: ISO 9001; ISO 14001; EN ISO 3834-2; ISO 45001

Business profile, products, services: Design, manufacture and installation of stainless-steel tanks, cisterns, containers, heat exchangers and technological equipment.

BALTMA — Stand A-8 (Hall 2)

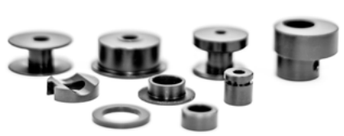

Phone: +371 64207220
E-mail: info@baltma.lv
web: www.baltma.lv

Number of employees: 19
Turnover in 2025 EUR: 1 349 230

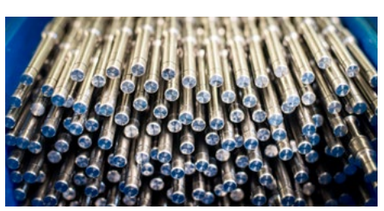

Contact person: Alvis Sokolovs
Position: Member of the Board
Mob.ph.: +371 29266503
E-mail: alvis.sokolovs@baltma.lv

Export markets: Germany; Sweden; Denmark; Finland; Lithuania; Estonia
Certificates in use: ISO 9001; ISO 14001

Business profile, products, services: CNC swiss type (longitudial) turning, CNC turning, CNC milling, CNC CMM, tumbling, prototyping, assembly of technical units, drawing prepraration.

CNC SAAN — Stand LV-7 (Hall 1)

Phone: +371 25141089
E-mail: info@cncsaan.lv
web: www.cncsaan.lv

Number of employees: 47
Turnover in 2025 EUR: 2 300 000

Contact person: Salvis Pīļups
Position: CEO
Mob.ph.: +371 26555009
E-mail: salvis@cncsaan.lv

Export markets: Czech Republic; Denmark; Estonia; Lithuania; Norway; Slovakia; Finland; Switzerland; Germany; Sweden
Certificates in use: ISO 9001

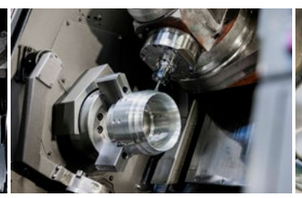

Business profile, products, services: Wide range of CNC Machining capabilities Under one Roof

CNC SAAN's core business is CNC machining services. The company was founded in 2012 and offers a wide range of turning and milling operations including 5-axis turning and milling as well as heavy-duty machining.

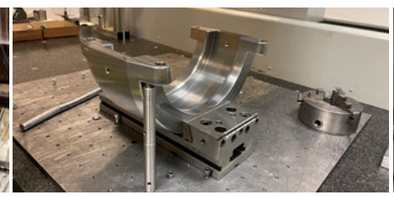

According to customer drawings the company produces components of various specifications and is able to provide a full cycle of part production including services such as heat treatment, surface treatment, assembly, welding and painting in cooperation with our company's outsoursing partners.

We focus on small and medium series production, and the company's equipment is suitable for the production of medium and large-sized parts. Company have 24 different CNC machining centers.

Our main industries are industrial equipment, agriculture, marine, processing equipment, offshore and energy industry, mining and defense industry.

COMPOR — Stand LV-11 (Hall 1)

Phone: +371 27822444
E-mail: info@compor.lv
web: www.compor.eu

Number of employees: 23
Turnover in 2025 EUR: 945 797

Contact person: Andrejs Morozovs
Position: Project Manager
Mob.ph.: +371 29417038
E-mail: andrejs.morozovs@compor.lv

Export markets: Estonia; Lithuania; Norway

Business profile, products, services: Pultruded, compression-moulded and filament-wound fibre composites

DAMBIS

Stand LV-5 (Hall 1)

Phone: +371 67387001
E-mail: info@dambis.com
web: https://dambis.com

Number of employees: 44
Turnover in 2025 EUR: 3 891 285

Contact person: Reičela Ansaberga
Position: Project Manager
Mob.ph.: +371 67387001
E-mail: info@dambis.com

Export markets: Finland; Netherlands; Estonia; Spain

Business profile, products, services: The company is engaged in the manufacturing of metal products and structures, providing a full production cycle from component manufacturing to final product assembly. The product range includes various types of metal cabinets, containers, safety bollards, benches, chairs, tables, waste bins, as well as other urban and industrial solutions. In addition, the company manufactures small-scale metal components and enclosures for electronic and communication equipment.

The company provides metalworking services, including CNC punching and bending, metal cutting, MIG/MAG/TIG welding, cold stamping, and metal structure assembly, ensuring high quality standards and an individual approach to customer requirements.

DESIGN TREE

Stand LV-14 (Hall 1)

Phone: +371 28673329
E-mail: info@designtree.lv
web: www.designtree.lv

Number of employees: 23
Turnover in 2025 EUR: 278 290

Contact person: Matīss Irbe
Position: Member of the Board
Mob.ph.: +371 28673329
E-mail: matiss@designtree.lv

Export markets: Norway; Sweden
Certificates in use: Special licence for commercial operations in the EU under MIL10

Business profile, products, services: SIA Design Tree is an engineering company specializing in the design and manufacturing of equipment and machinery for industrial companies. The company's main focus is on custom production equipment tailored to specific customer needs – ranging from individual machines to complete production lines.

The company covers the entire development cycle – from idea and concept design to detailed engineering, prototyping, final production, and equipment commissioning.

Main areas of activity:

- Design and manufacturing of custom production equipment;
- Development and implementation of complete production lines;
- Automation solutions (conveyors, semi-automated systems, robotic systems);
- Lean and ergonomic assembly workstations and auxiliary equipment;
- Prototyping and concept development for specific manufacturing challenges.

SIA Design Tree works with both local and international clients, including manufacturers in Sweden and across the Nordic region.

EAST METAL

Stand LV-3 (Hall 1)

Phone: +371 63781704 (Dobele)
+371 65456001 (Daugavpils)
E-mail: info@eastmetal.lv
web: www.eastmetal.com

Number of employees: 340
Turnover in 2025 EUR: 30 465 395

Contact person: Mārtiņš Lavrenovs
Position: Director
Mob.ph.: +371 63781704
E-mail: martins.lavrenovs@eastmetal.lv

Export markets: Germany; USA; Norway; Sweden; Denmark; Finland; Austria; Poland
Certificates in use: ISO 9001; ISO 14001; EN ISO 1090-2; EN 15085 CL2; EN ISO 3834-2; ISO 45001; EN ISO 9606-1

Business profile, products, services: Metal components for crane and wind generators, lifting and transport equipment, transformer components (tanks), waste shredders, excavator frames and components, snowblower frames and components, woodworking workbench and hydraulic press constructions.

ECOHEAT TECHNOLOGIES

Stand LV-25 (Hall 1)

Phone: +371 +371 28611499; +371 25616180
E-mail: info@ecoheatholdings.lv
web: https://ecoheatholdings.lv

Number of employees: 80
Turnover in 2025 EUR: 8 565 866

Contact person: Mārtiņš Vītols
Position: Trade Manager
Mob.ph.: +371 25616180
E-mail: trade@ecoheatholdings.lv

Export markets: Estonia; Finland; Lithuania; Poland; Sweden; Ukraine
Certificates in use: ISO 9001:2015; EN 1090-1 (EXC3); EN ISO 3834-2; EN ISO 9606-1; EN 13084; PED 2014/68/EU; AQAP-2110

Business profile, products, services: EcoHeat Technologies SIA is one of the leading metalworking and energy engineering companies in Latvia. At its production plant in Jelgava, the company designs, manufactures, installs and services heating solutions for municipalities, district heating utilities and industrial companies across Europe. Its core offer is turnkey biomass boiler houses, including factory-built modular plants, alongside RDF and natural gas heat generation solutions. All key components are made in house: boilers of 0.25–3 MW, chimneys, automated wood-chip storage and screw conveyors. Every plant is backed by maintenance, spare parts and operator training, and the company also designs and builds district heating networks. EcoHeat produces welded steel structures and heavy fabrications to EN 1090-1 (EXC3) for industrial customers. Its new steel and non-ferrous foundry in Jelgava is scheduled to open in Q4 2026, adding castings and machined components for OEMs. EcoHeat-built boiler houses heat towns in Latvia, Lithuania, Poland and Sweden. Customers include AS Rīgas Siltums, SIA Liepājas Enerģija, AS Olaines Ūdens un Siltums, SIA Mārupes Siltumnīcas, Saxlund AB (Sweden) and many other.

Efficient heating and metalworking for a sustainable future.

EHT FABRIK — Stand E-10 (Hall 2)

Phone: +371 67933733
E-mail: info@ehtfabrik.com
web: www.ehtfabrik.com

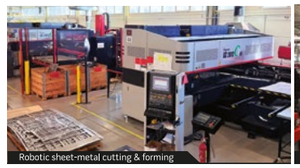

Number of employees: 44
Turnover in 2025 EUR: 3 159 774

Contact person: Gusts Sekacis
Position: Member of the Board
Mob.ph.: +371 29273256
E-mail: gusts@ehtfabrik.com

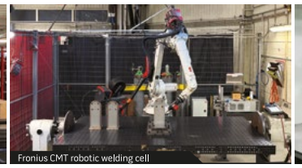

Certificates in use: ISO 9001

Export markets: Germany; Sweden; Denmark; Netherlands; Lithuania; Italy; Hungary; Portugal; Switzerland; Iceland

Business profile, products, services: EHT FABRIK is one of the leading precision sheet-metal manufacturers in Latvia, providing a full range of in-house services within 4,000 m² of purpose-built production facilities. We deliver high-quality, cost-efficient solutions from concept and prototyping to serial production and final assembly.
Automated Equipment: Self-learning automated powder coating line with Ai; Robotic sheet-metal combo processing (cutting & forming); Robotic sheet-metal bending; Fronius CMT robotic welding cell
Core Capabilities: CNC punching and laser cutting, CNC forming and tapping, CNC bending, CNC inserting and stud welding, TIG/MAG welding, robotic welding, 3D CMM inspection, vibratory tumbling, tube sawing, stainless steel and aluminium surface grinding, ceramic shot blasting, engineering services, prototyping, and clean stainless-steel processing. We specialise in the design, manufacture, and assembly of bespoke sheet-metal enclosures and precision metal components, where both quality and visual appearance are essential. Our experienced, quality-driven team combined with an advanced ERP system enables efficient production planning, innovative manufacturing solutions, and minimised risk of human error.

Robotic sheet-metal cutting & forming

Robotic sheet-metal bending

Fronius CMT robotic welding cell

Fully automated powder coating line with AI

EMJ METĀLS — Stand B-1 (Hall 2)

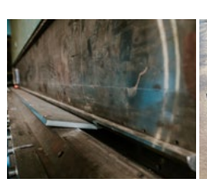

Phone: +371 26661153
E-mail: info@emjmetals.lv
web: www.emjmetals.lv

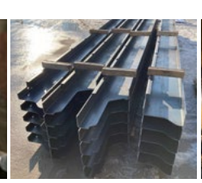

Number of employees: 175
Turnover in 2025 EUR: 26 554 804

Contact person: Agris Punculs
Position: Marketing Director
Mob.ph.: +371 26661153
E-mail: agris.punculs@emjmetals.lv

Export markets: Germany; Norway; Sweden; Denmark; Finland; Netherlands; Lithuania; Estonia; Belgium; Slovakia; Ukraine
Certificates in use: ISO 9001; ISO 14001; EN ISO 1090-2; EN ISO 3834-2; ISO 50001; AQAP-2110

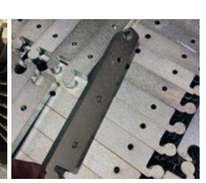

Business profile, products, services: EMJ Metāls is a sheet metal subcontracting company serving industrial customers across Europe.
For the civil industry, our core business is manufacturing customer-designed sheet metal parts. Additional operations, including welding, machining, wet painting and surface treatment, are available for selected projects upon customer request.
For the defence industry, we provide full manufacturing solutions ranging from sheet metal components to welded, painted and assembled structures manufactured from structural and ballistic steels, in compliance with demanding quality and documentation requirements.
Core manufacturing capabilities include 2D and 3D laser cutting (up to 12,000 mm), CNC bending (up to 8,000 mm / 1,000 t), plasma cutting with bevel cutting, drilling and threading, welding, wet painting, and large-scale CNC machining of welded structures (up to 14,000 × 3,000 × 2,500 mm, 20 t workpiece weight).

ENERGOFIRMA "JAUDA" — Stand A-19 (Hall 2)

Phone: +371 25735666
E-mail: info@jauda.com
web: www.jauda.com

Number of employees: 200
Turnover in 2025 EUR: 26 000 000

Contact person: Evija Liakovičus
Position: Chairman of the Board, Lawyer
Mob.ph.: +371 26138370
E-mail: evija.liakovicus@jauda.com

Export markets: Germany; Norway; Sweden; Denmark; Finland; Netherlands; Lithuania; Estonia; France; Poland
Certificates in use: ISO 9001; ISO 14001; EN ISO 1090-1; EN ISO 3834-2; ISO 50001; EN ISO 1090-2 EXC3

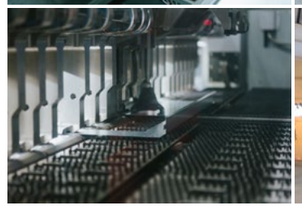

Business profile, products, services: : With 65 years of experience, JAUDA is your trusted manufacturer of power distribution boxes, enclosures, control panels, and compact transformer substations. In addition, we have extensive expertise in structural steel fabrication, sheet metal processing, powder coating, and mechanical and electrical assembly.

ENERGOLUKSS — Stand LV-8 (Hall 1)

Phone: +371 67542223
E-mail: info@energolukss.lv
web: www.energolukss.lv

Number of employees: 70
Turnover in 2025 EUR: 16 017 000

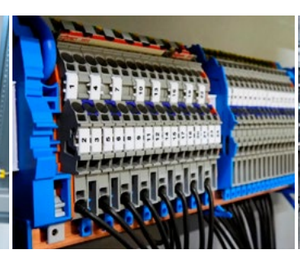

Contact person: Armands Tarvids
Position: Production Manager
Mob.ph.: +371 67542223
E-mail: armandst@energolukss.lv

Export markets: Sweden; Norway; Denmark
Certificates in use: ISO 9001

Business profile, products, services: Energolukss is a full-service power supply partner for businesses and infrastructure projects, providing solutions from equipment selection and supply to installation, maintenance and rental. With our engineering expertise and comprehensive understanding of power supply systems, we deliver suitable long-term solutions and high-quality services to ensure business continuity for our customers. One of our key areas of expertise is the production of electrical switchboards tailored to customer requirements. Energolukss product portfolio includes generators, UPS systems, battery systems, energy storage systems (BESS), EV charging equipment, solar energy solutions and electrical components.

EXIGUM — Stand LV-19 (Hall 1)

Phone: +371 67673000
E-mail: sales@exigum.com
web: www.exigum.com

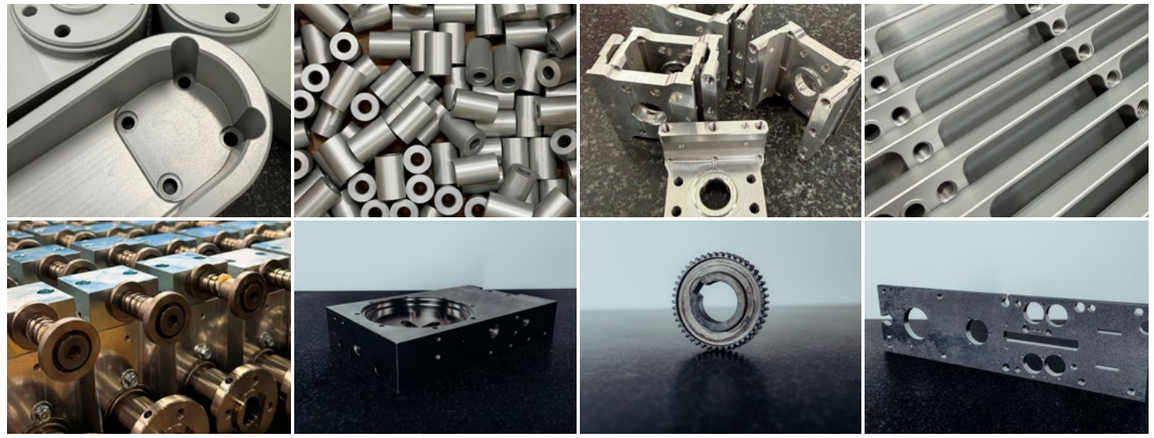

Number of employees: 25
Turnover in 2025 EUR: 1 559 000

Contact person: Kārlis Krūmiņš
Position: CEO
Mob.ph.: +371 26577981
E-mail: karlis.krumins@exigum.com

Export markets: Sweden; Denmark; Finland; Switzerland; Germany: Netherland; Lithuania; Estonia
Certificates in use: ISO 9001; ISO 14001; ISO 45001; AQAP-2110; Defense production license for ML group components

Business profile, products, services: Exigum, excels in delivering high-precision CNC machining solutions tailored to meet demands of modern industries. With our team we turn our customer demands into reality.

Able to produce different kind complexity and volume products in dimensions from 20mm to 900mm.

FILTRI — Stand LV-23 (Hall 1)

Phone: +371 67466674
E-mail: filtri@filtri.lv
web: www.filtri.lv

Number of employees: 18
Turnover in 2025 EUR: 1 099 951

Contact person: Lienīte Bite
Position: Director
Mob.ph.: +371 29165330
E-mail: lienite@filtri.lv

Export markets: Norway; Finland; Lithuania
Certificates in use: ISO 9001

Business profile, products, services: Manufacture of air filters for ventilation systems. Aspiration filters, cartridge filters, filter elements and filter materials, etc. sales of related products. Filtering materials for air purification technologies. Fabric air distributors, textile diffusers.

FONONS — Stand LV-20 (Hall 1)

Phone: +371 29110239
E-mail: fonons@fonons.lv
web: www.fonons.lv

Number of employees: 12
Turnover in 2025 EUR: 744 300

Contact person: Jānis Zvirgzds
Position: Member of the Board
Mob.ph.: +371 29259135
E-mail: janis.zvirgzds@fonons.lv

Export markets: Lithuania; Estonia; Slovenia
Certificates in use: ISO 9001; EN ISO 1090-1

Business profile, products, services: Manufacturing air compressors, water pumps, Air blowers for water treatment, custom compressed air systems, mobile air systems, custom air blowers. Full aftermarket service.

FORBERG PRODUCTION — Stand LV-31 (Hall 1)

Phone: +371 26672554
E-mail: sales@forberg.no
web: www.forberg-international.com

Number of employees: 7
Turnover in 2025 EUR: 1 494 433

Contact person: Igor Milanovic
Position: Managing Director
Mob.ph.: + 47 94238989
E-mail: igor.milanovic@forberg.no

Export markets: 120+ countries plus Europe, Asia, South & North America and Australia
Certificates in use: ATEX

Business profile, products, services: Engineering services, Customized machinery, R&D, Mixers, Vacuum Coater, Drying and Steam Heat Treatment System, Mineral Wool Machinery. From 2027, we will expand our capabilities to include steel manufacturing services, offering rolling, bending, polishing, and welding to deliver complete industrial solutions from design to fabrication.

GOOD STEEL — Stand LV-28 (Hall 1)

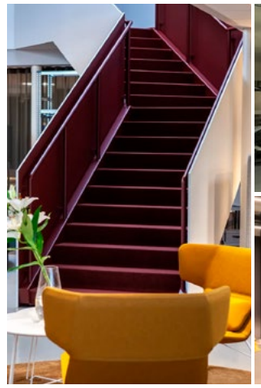

Phone: +371 29429734
E-mail: info@goodsteel.lv
web: www.goodsteel.lv
www.strongpergola.com

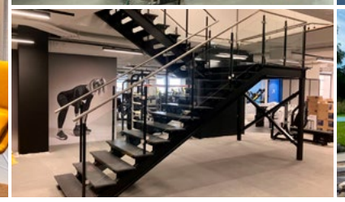

Contact person: Artis Miklavs
Position: Member of the Board
Mob.ph.: +371 29429734
E-mail: info@goodsteel.lv

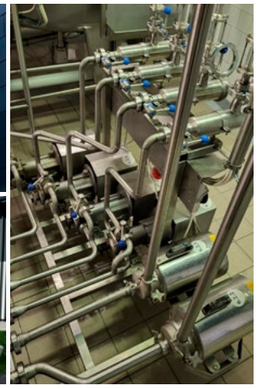

Number of employees: 10
Turnover in 2025 EUR: 542 000

Export markets: Sweden; Lithuania; Estonia; Iceland

Business profile, products, services: Production, design and assembly of various metal constructions. We create many different types of metal structures using the latest in metalworking technologies. We work together with each of our clients to find the best solutions. Main services: Metal and aluminium structures - Design items; Metalworking; Turning; Milling; TIG, MIG-MAG welding; Cutting and folding; Galvanization and powder painting; Delivery and installation. Our products are mostly made of stainless steel and black steel. We can both powder paint and galvanize selected metal products to order, and combine them with other materials (wood, glass, plastic, composite panels, etc.)

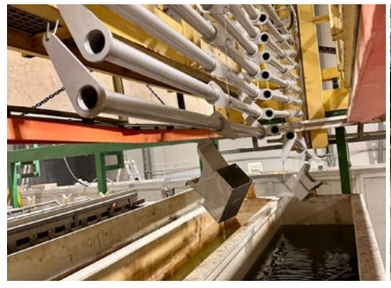

ICS STEEL — Stand K-6 (Hall 1)

Phone: +371 26744557
+371 26688466
E-mail: info@icssteel.lv
web: www.icssteel.eu

Number of employees: 49
Turnover in 2025 EUR: 1 822 443

Export markets: Sweden; Denmark; Finland; Lithuania; Estonia
Certificates in use: ISO 9001; ISO 14001

Business profile, products, services: METAL SURFACE FINISHING AND TREATMENT: electrochemical galvanizing, anodizing, plasma electrolytic oxidation, electrochemical polishing, decorative nickel and chrome plating, tinning, mechanical polishing, as well as small-scale metal fabrication.

INDUCONT — Stand C-8 (Hall 2)

Phone: +371 22078773
E-mail: office.riga@inducont.lv
web: www.inducont.lv
www.inducont.lv/katalogs

Contact person: Matīss Ūdris
Position: Board Member
Mob.ph.: +371 28360605
E-mail: matiss@inducont.lv

Number of employees: 14
Turnover in 2025 EUR: 4 800 000

Export markets: Lithuania; Estonia

Business profile, products, services: Since 2004 Inducont has been a distributor of industrial components and an engineering partner in Latvia and Estonia. We represent Danfoss (variable frequency drives, heating controls, sensors, heat substations), KROHNE (flow and level measurement), Grundfos (pumps), AVK (valves), Diehl Metering (water and heat meters), Nordic Water and Cannon Bono (industrial boilers, heat pumps). Process automation for water supply, wastewater, district heating and manufacturing: control cabinets, PLC programming, remote monitoring. Authorised Danfoss VLT/VACON service partner; heat meter repair and maintenance. Online product catalogue with prices and stock: inducont.lv/katalogs.

INFLUX FABRICATION — Stand LV-21 (Hall 1)

Phone: +371 26282883
E-mail: info@influx.lv
web: www.influx.lv

Contact person: Rihards Krūmiņliepa
Position: CEO
Mob.ph.: +371 25665884
E-mail: rihards@influx.lv

Number of employees: 29
Turnover in 2025 EUR: 2 347 000

Export markets: Denmark; Estonia; United Kingdom; Lithuania; Finland; Germany; Sweden

Business profile, products, services: INFLUX FABRICATION is a CNC machining company based in Latvia. We provide CNC milling, turning, and assembly services for machine building, construction, and general engineering industries.

With 15 CNC machines, we manufacture parts from prototypes and small batches to large series. We offer flexible production, competitive prices, and reliable delivery times.

We work with stainless steel, structural and tool steels, Hardox, Strenx, aluminium, brass, bronze, and plastics. Together with our partners, we also offer zinc plating, anodizing, and heat treatment. Our goal is to build long-term cooperation with our customers by providing good quality, reliable service, and on-time delivery.

Business profile, products, services: : Stokker has more than 30 years of experience in sales and service of tools and machinery. We offer high-quality industrial equipment:

- Welding equipment and fume extraction systems from the world's leading manufacturers. Lincoln Electric, Bohler Welding, Plymovent
- Welding cobots
- Inventory management equipment SMARTSTOKK
- Ingersoll Rand screw compressors and pneumatic tools
- Metal processing workbenches
- Industrial power generators and battery energy storage systems

EDUCATIONAL INSTITUTIONS – MASOC MEMBERS at Tech Industry 2026

EDUCATION CENTRE "BUTS" — Stand A-7 (Hall 2)

Further education institution
Phone: +371 27898000
E-mail: info@buts.lv
web: www.buts.lv

Contact person: Mārtiņš Segliņš
Position: Commercial Director
Mob.ph.: +371 27898018
E-mail: martins.seglins@buts.lv

Specialists prepared: Welders (OAW, MMA, MIG/MAG, TIG) for certification according to EN ISO 9606-1 standard (Lloyd's Register, TUV NORD BALTIK, DNV GL Latvia), Ventilation and conditioning systems specialist, Plumbing specialists, Electricians, Work safety specialists, Fire safety specialists

RIGA METALWORKING VOCATIONAL SECONDARY SCHOOL — Stand V-3 (Hall 1)

Vocational education institution
Phone: +371 67288561
E-mail: skola@rmpv.lv
web: www.rmpv.lv

Contact person: Didzis Avišāns
Position: Director of the Welders' Training and Examination Center
Mob.ph.: +371 26304171
E-mail: didzis@rmpv.lv

Specialists prepared: Welding (MMA, MAG, MIG, TIG); Metalworking (Metal worker, Turner, Locksmith); Information communication technologies (Software technician)

RIGA TECHNICAL COLLEGE — Stand V-2 (Hall 1)

Vocational education institution
Phone: +371 67081400
E-mail: brasla@kcrtk.lv
web: www.rtk.lv

Contact person: Kristīne Rūtiņa
Position: Deputy Director
Mob.ph.: +371 67081433
E-mail: kristine.rutina@kcrtk.lv

Specialists prepared: Qualified specialists: Short-cycle professional higher education – Mechanical Engineering Specialist; Mechatronics Engineer.

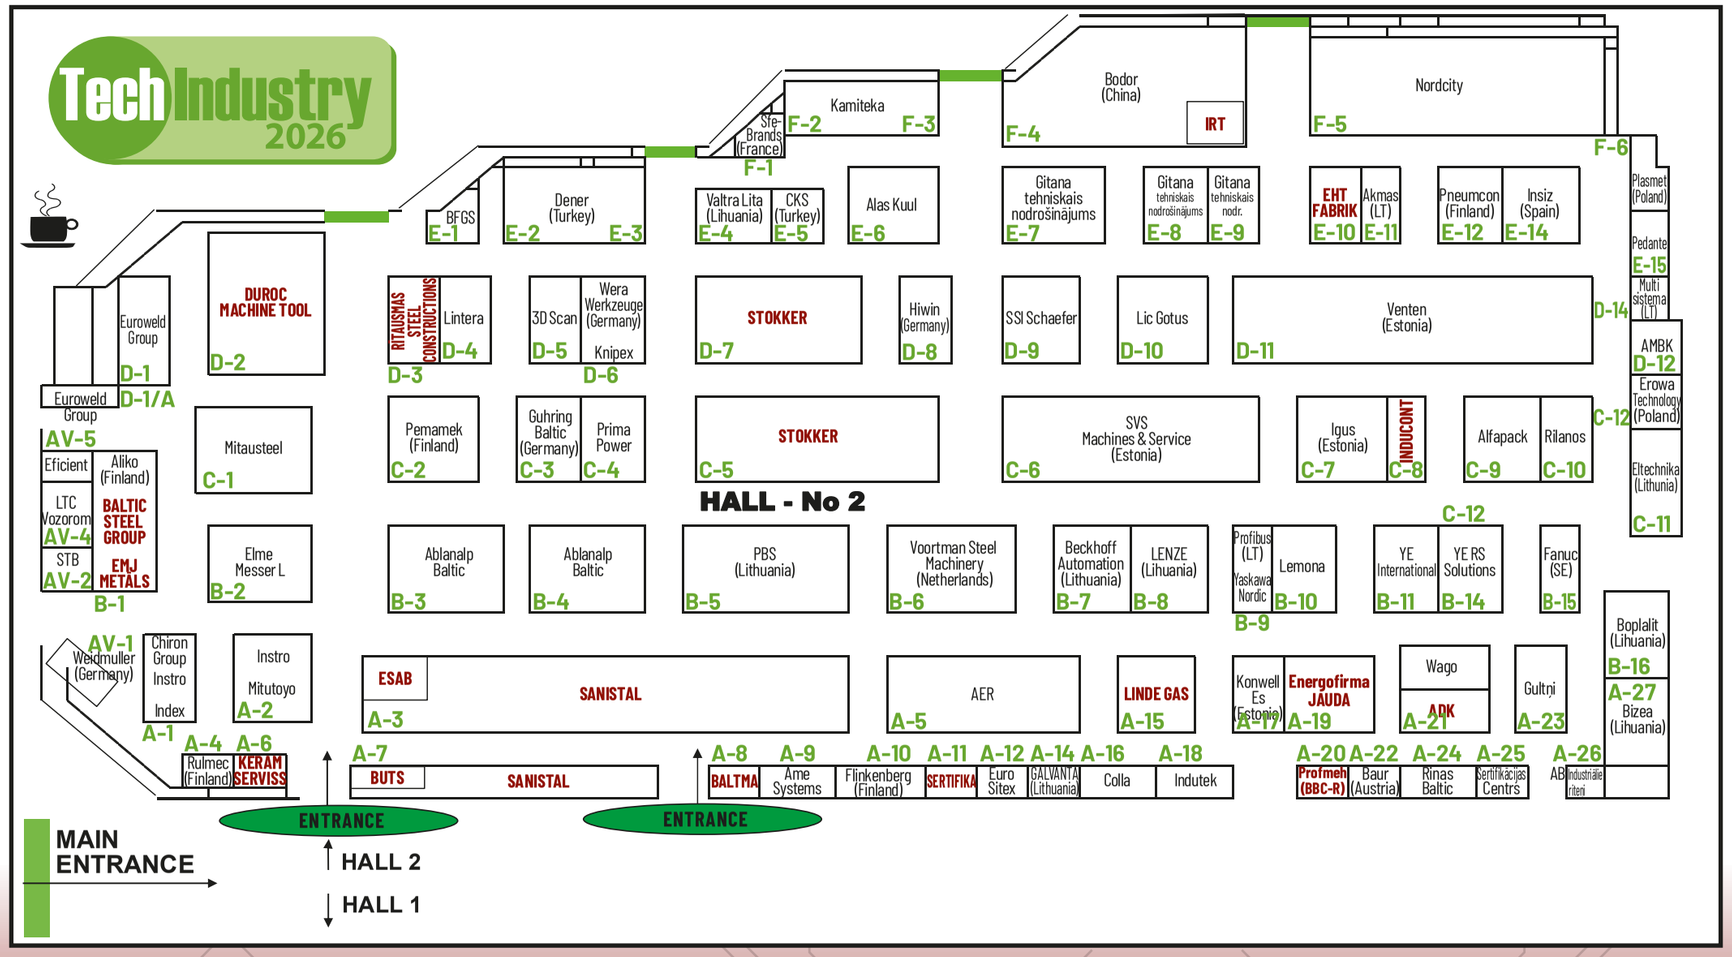

Vocational secondary education - Program- Controlled Metalworking Machine Tool Setter; Program- Controlled Metalworking Machine Tool Operator; Mechatronic Systems Technician

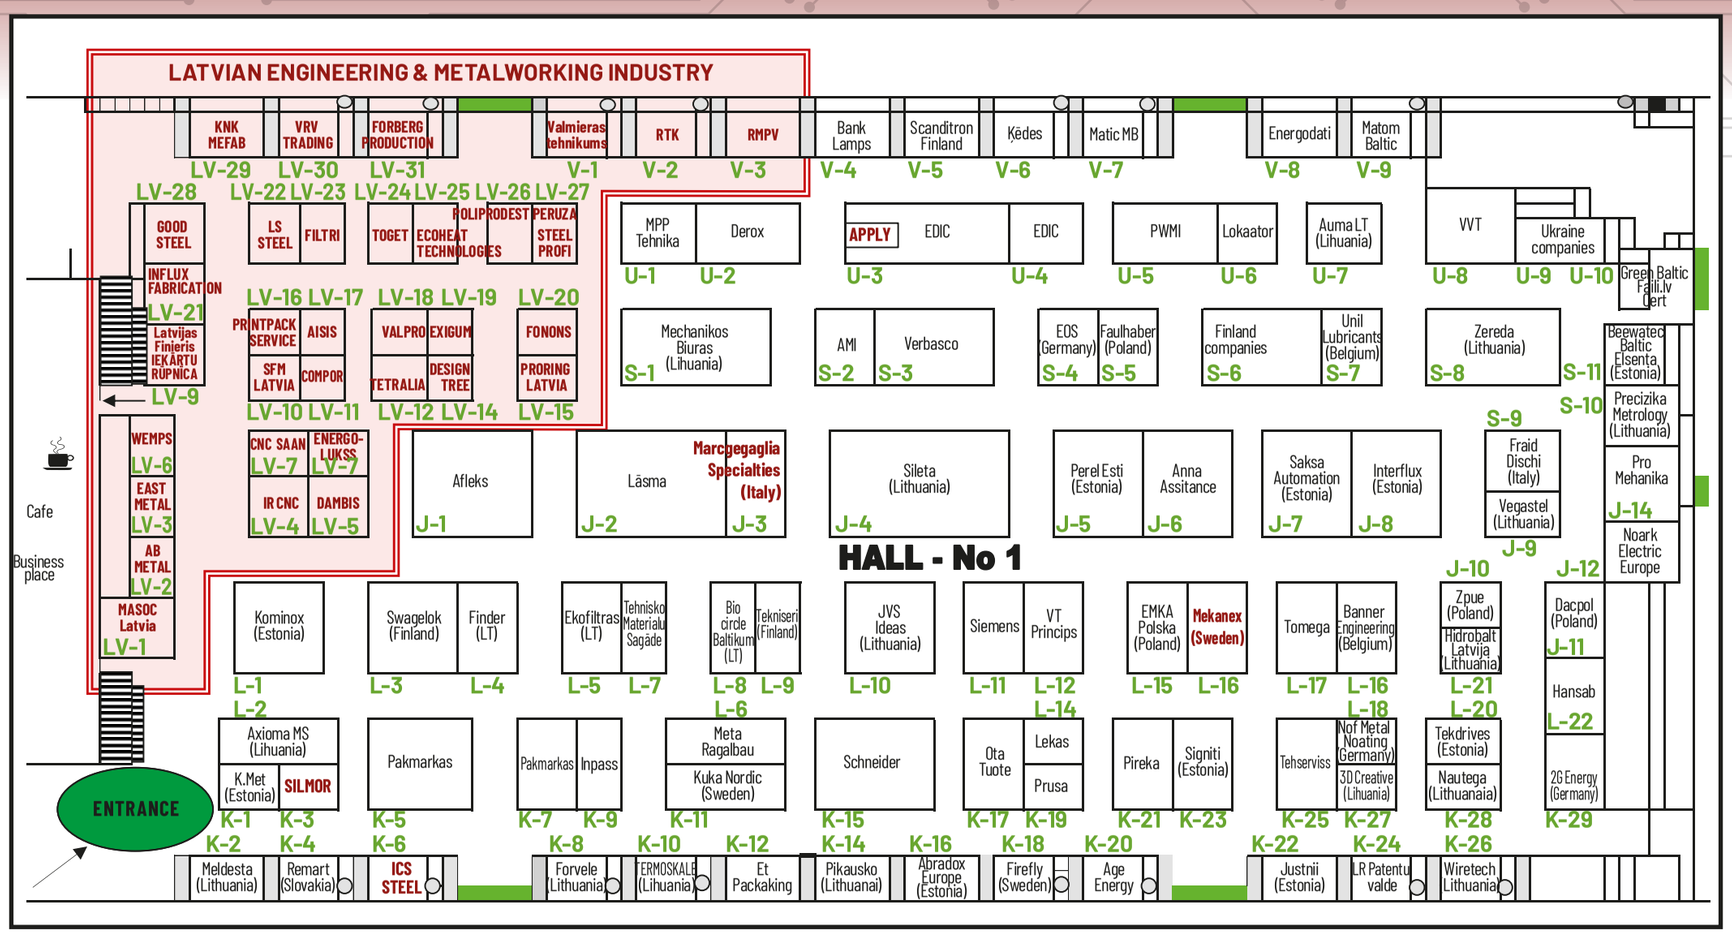

VALMIERA VOCATIONAL EDUCATION AND TRAINING SCHOOL — Stand V-1 (Hall 1)

Vocational education institution
Phone: +371 29009990
E-mail: skola@valmierastehnikums.lv
web: www.valmierastehnikums.lv

Contact person: Linda Riba
Position: Deputy Director for Strategic Planning and Educational Development
Mob.ph.: +371 20083787
E-mail: linda.riba@valmierastehnikums.lv

Specialists prepared: Mechanical Engineering Technician, MAG Welder (135) – Mechanised Welding in an Active Gas Environmen, Mechatronics Systems Technician, CNC Machine Tool Operator, Electrical Engineering Technician, Logistics Specialist.
