Mašīnbūves un metālapstrādes rūpniecības asociācija (MASOC) kopš 1994.gada pārstāv asociācijas biedru un nozares kopējās intereses un īsteno kopīgus projektus biedru un nozares konkurētspējas stiprināšanai. MASOC apvieno virs 170 vadošos nozares uzņēmumus, saistītos pakalpojumu sniedzējus, pētniecības un izglītības institūcijas.

GALVENIE DARBĪBAS VIRZIENI IETVER:

INTEREŠU PĀRSTĀVNICĪBA

Pastāvīgi tiek nodrošināta sadarbība un dialogs ar valsts pārvaldes institūcijām, lai sekmētu nozares attīstībai būtisku jautājumu risināšanu. Pārstāvot biedru intereses tiek nodrošināta cieša sadarbība ar Latvijas Tirdzniecības un rūpniecības kameru un Latvijas Darba devēju konfederāciju. Eiropas līmenī intereses tiek pārstāvētas ar Eiropas Inženierozaru asociācijas ORGALIME starpniecību, kuras biedrs ir MASOC.

IZGLĪTĪBA, CILVĒKRESURSU ATTĪSTĪBA UN JAUNATNES PIESAISTE

Tiek īstenota sadarbība ar visām nozīmīgākajām profesionālās un augstākās izglītības institūcijām, Izglītības un zinātnes ministriju, kā arī organizēti pasākumi jaunatnes piesaistei mācībām un studijām inženierzinātnēs un nozarei būtiskās profesijās. Viens no MASOC organizētajiem projektiem – Tehnobuss, ir ceļojoša mobila demo laboratorija, kura ir aprīkota ar modernām tehnoloģijām un ikdienā organizē nodarbības skolās ar mērķi ieinteresēt jauniešus inženierzinātnēs. Apmācību projekta ietvaros uzņēmumiem ir pieejams atbalsts darbinieku kvalifikācijas celšanai un tālākpmācības kursu īstenošanai.

MĀRKETINGS UN EKSPORTA VEICINĀŠANA

Asociācijas biedru produkti, tehnoloģiskās iespējas un sadarbības piedāvājumi tiek reklamēti starptautisko izstāžu, vizišu un tirdzniecības misiju ietvaros. Ik gadu tiek publicēts uzņēmumu katalogs LATVIAN METAL INDUSTRY, kas ietver informāciju par visu asociācijas uzņēmumu piedāvāto produkciju, pakalpojumiem un tehnoloģiskajām iespējām. Tiek organizēti kopīgi standi starptautiskajās izstādēs un braucieni uz kontaktu veidošanas pasākumiem, piesaistot atbalstu no ES fondiem.

SAVSTARPĒJĀ SADARBĪBA UN KOOPERĀCIJA

Savstarpējā sadarbība un kooperācija tiek veicināta īstenojot kopīgus projektus un pasākumus, kā arī nodrošinot nepieciešamās informācijas apmaiņu. MASOC pastāvīgi uztur un atjauno datu bāzi par uzņēmumu tehnoloģiskajām iespējām un kompetencēm, līdz ar to atvieglojot sadarbības partneru meklēšanu. Regulāri tiek rīkoti kopīgi pasākumi, kuru ietvaros ir iespējas neformālo kontaktu veidošanai ar citiem nozares uzņēmumiem, zināšanu un labas prakses apmaiņai.

PĒTNIECĪBA UN INOVĀCIJAS

Mašīnbūves kompetences centra ietvaros tiek sniegts atbalsts jaunu produktu un tehnoloģiju attīstības projektiem. MASOC cieši sadarbojas ar augstākās izglītības un pētniecības institūcijām, t.sk. iesaistoties kopīgos inovāciju projektos ar studentiem. Arvien lielāks uzsvars tiek likts uz digitalizāciju un progresīvo ražošanas metožu ieviešanu, kur iesaiste nacionālā un Eiropas līmeņa platformās MASOC biedriem dod piekļuvi zināšanām, ekspertu atbalstam un jaunākajiem digitāliem risinājumiem.

INFORMĀCIJA

Pastāvīgi tiek analizētas nozares attīstības tendences gan Latvijā, gan galvenajos eksporta tirgos. Tiek analizēta tehnoloģisko iespēju attīstība nozares uzņēmumos, situācija ar ražošanas jaudu noslodzi, esošajiem un trūkstošajiem speciālistiem, kā arī cita ar nozares attīstību saistīta informācija. Potenciālajiem sadarbības partneriem MASOC piedāvā atbalstu sadarbības partneru piesaistē un kontaktu veidošanā.

Lai kļūtu par pilntiesīgu biedru, piedalītos aktivitātēs un pilnvērtīgi izmantotu biedriem sniegtās priekšrocības aicinām iepazīties ar kārtību kā kļūt par biedru.

Since 1994, the Association of Mechanical Engineering and Metalworking Industries (MASOC) has been representing the common interests of the association's members and industries and has been implementing joint projects for strengthening the competitiveness of the members and the industry. MASOC brings together more than 170 leading industry companies, the related service providers, research and education institutions.

THE MAIN AREAS OF ACTIVITY:

REPRESENTATION OF INTERESTS

Cooperation and dialogue with public administration institutions is provided constantly in order to contribute to solving the issues important for industry development. By representing the interests of its members, close cooperation with the Latvian Chamber of Commerce and Industry and the Employers' Confederation of Latvia is provided. At the European level the interests are represented through the European Engineering Industries Association ORGALIME, MASOC being a member of it.

EDUCATION, HUMAN RESOURCES DEVELOPMENT AND YOUTH ATTRACTION

Cooperation with all major professional and higher education institutions and the Ministry of Education and Science is organised, as well as activities for attracting young people to studies of engineering sciences and industry related occupations are being implemented. One of the projects organised by MASOC – Tehnobuss – is a travelling mobile demonstration laboratory equipped with modern technologies that organises daily classes for schools with the aim of promoting interest in young people about engineering sciences. Within the training project companies are provided support for increasing the qualification of their staff and for implementation of the further training process.

MARKETING AND EXPORT PROMOTION

Products, technological capabilities and cooperation offers of the association members are promoted at international exhibitions, visits and trade missions. Every year the company catalogue LATVIAN METAL INDUSTRY is published, which includes information on the products, services and technological capabilities offered by all companies of the association.

MUTUAL COOPERATION AND COLLABORATION

Mutual cooperation and collaboration is promoted through the implementation of joint projects and activities, as well as by providing the necessary exchange of information. MASOC constantly maintains and updates the database on the technological capabilities and competences of the companies, thus facilitating the search for cooperation partners. Regular events are held, during which there are opportunities for creating informal contacts with other companies in the sector, exchange of knowledge and good practices.

RESEARCH AND INNOVATION

Mechanical Engineering Competence Centre is an initiative established by MASOC that provides support for development of new products and technologies. Close co-operation is ensured between MASOC and higher education and research institutions, including involvement of students in innovation projects. Digitalisation and advanced manufacturing is another area where MASOC is involved in several National and European level platforms. This provides MASOC members with access to top knowledge, expertise, tools and solutions in the area of digitalisation and advanced manufacturing.

INFORMATION

The development trends of the industry both in Latvia and in the main export markets are constantly analysed. The development of technological capabilities in companies of the industry, the situation of the production capacity load, the existing and missing specialists, as well as other information related to the development of the industry is analysed. MASOC offers support to the potential members for attracting cooperation partners and establishing new contacts.

SUBCONTRACTING

Many of the companies in the sector are involved in subcontracting activities. Altogether the member companies cover the whole spectrum of metal processing technologies making it possible to produce parts and components of any level of complexity. MASOC constantly maintains a database of technological capabilities of the member companies making it possible to find the right supplier both for local and foreign partners.

PARTNER SEARCH

We offer information about technological capabilities and competences of the companies; assistance in finding suppliers and cooperation partners; effective subcontracting network covering the whole range of metal processing technologies; single contact point for information and inquiries. We offer organisation of incoming trade missions and site visits to our member companies. Potential partners are welcome to contact MASOC and we will help to arrange B2B meetings and assist with logistics support.

VENTSPILS – CENTRE OF METALWORKING INDUSTRY

VENTSPILS SEZ BENEFITS:

- “Developed to suit” sites, premises and all necessary infrastructure
- Land lots and premises for rent
- Tax incentives
- Business start-up support and clustering of engineering and automotive industry
- Efficient container and ferry connection to Sweden

VENTSPILS TECHNICAL SCHOOL:

- Welders training – MMA, TIG, MAG, reading of drawings
- Mechanical Engineering Technicians, Electro technicians, Car mechanics
- Possibility to create programme, that is needed for company
- Internships in major Ventspils companies: Bucher Municipal, Malmar Sheet Metal, etc.

ACKNOWLEDGEMENTS OF OUR SEZ:

- Forbes: Ventspils – the best regional location for business in Latvia
- Financial Times fDi: 1st best in the category of TOP zones for the development of large tenant companies globally and 2nd best - for the development of small and medium-sized enterprises in the European region
- Financial Times fDi: 10th best in the category TOP 10 free zones in the world

Languages: Latvian; English; Russian; Polish

Number of employees: 45
Turnover in 2022 EUR: 2 000 000
Turnover in 2021 EUR: 1 600 000
Turnover in 2020 EUR: 1 100 000
Main markets: Germany; EU; Sweden; Finland; Baltic states; Poland; Kazakhstan
Year of foundation: 1998
Business profile: Rubber and silicone compounds and rubber products
Looking for cooperation in the area of: Subcontracting
Technology facilities in company: Casting; Moulding of rubber articles
Other technologies, not mentioned in technology table: Rubber compounds production. Compression and injection moulding
Certificates in use: ISO 9001; ISO 50001

POLIPRODEST
Legal form: Ltd.

Number of employees: 40
Turnover in 2022 EUR: 12 752 435
Turnover in 2021 EUR: 11 237 226
Turnover in 2020 EUR: 7 623 545
Main markets: United Kingdom; Latvia; EU
Year of foundation: 2002
Business profile: Supplier of industrial plastics, packing materials, films, digital printing equipment and materials, providing specialized services as a production of parts from technical plastic, milling of aluminum, plastic, plywood and other materials, plastic cutting, knife sharpening
Looking for cooperation in the area of: Companies interested in the production of parts from technical plastics. Technical plastic and aluminum sheet material supplies
Technology facilities in company: Sawing; CNC turning; CNC milling; Sharpening

FONEKSS METĀLS
Legal form: Ltd.

Number of employees: 65
Turnover in 2022 EUR: 9 900 000
Turnover in 2021 EUR: 6 500 000
Turnover in 2020 EUR: 5 500 000
Main markets: Germany; Norway;
 Sweden; Finland; France; Poland
Year of foundation: 2002

Business profile: Nodular and grey iron castings for various applications. Casting weight up to 100 kg. Machining of raw castings and surface treatment. Sand-based machine moulding line +GF+ with flask size 600x700x300/300. Annual capacity 3500 tons. The strength of the foundry consists of efficiency and flexibility based on small and medium sized series. Our pattern shop offer prototyping, competitive models based on 3D technology and skilled craftsmanship
Looking for cooperation in the area of: Manufacturing of nodular and grey iron castings for various applications
Technology facilities in company: Iron casting; Surface grinding; Design services CAD; Rapid prototyping; Shot blasting; Wet painting; 3D coordinate measuring (CMM); Chemical composition tests of metal; Mechanical property tests of metal; Non-destructive tests (NDT); Design of moulds and dies; Production of moulds and dies
Certificates in use: ISO 9001; Lloyd's; DNV, LRS, ABS, BV, ISO 14001:2015; ISO 45001:2018; ISO 50001:2018

 Switzerland
Year of foundation: 2012

Business profile: "CNC SAAN", LTD main business profiles are CNC machining and steel structures manufacturing. Company was established by professionals, who have gained experience in international manufacturing sectors and are able to provide high quality solutions for customers. Company provides services as a subcontractor for small and medium volumes to customers, that specialize in production fields as Industrial equipment, Agriculture, Nuclear research, Energetics, Processing equipment, Oil&Gas maining. "CNC SAAN", LTD have CMM measuring machine and 19 different CNC machine centres, where maximum machining parameters are: milling (horizontal and vertical) - max 6000 x 1260 x 1750 mm, turning up to D 700 x 3000mm and 5 axis turning – milling centres. Involving our collaboration partners "CNC SAAN", LTD also provides the following services like hardening, galvanizing, anodization and painting
Looking for cooperation in the area of: Company is looking for partners in various industry sectors to cooperate in CNC machining and steel structures manufacturing
Technology facilities in company: Sawing; Turning; CNC turning; Milling; CNC milling; CNC machining centres; MIG/MAG welding; TIG welding; 3D coordinate measuring (CMM)
Certificates in use: ISO 9001:2015

Turnover in 2021 EUR: 87 030
Turnover in 2020 EUR: 29 711
Main markets: Germany; Latvia;
 Estonia; Poland; Middle East
Year of foundation: 1886

Business profile: The company has two lines of business:
 1. Casting, forging of the desired shape from any type of lead or lead alloy. The company manufactures lead shot and bullets, ballast lead shot, lead and aluminum seals.
 2. Production of products for the aviation industry according to customer drawings from steel, stainless and heat-resistant steel, aluminum, titanium, brass and plastic.
 We offer production of high precision parts and products with special requirements for quality and durability. We accept orders from one prototype to hundreds of parts. That we also provide services in the production on the basis of soft metals (Pb, Zn, etc.) Production of smooth-bore ammunition, production of plastic parts up to 150 g. We are interested in placing orders with manufacturers who have modern equipment and production methods with a modern metal product quality control laboratory
Looking for cooperation in the area of: Outsourced production based on soft metals (Pb, Zn etc.) Ammunition manufacturing. Plastic parts manufacturing up to 150g weight. Interested in placing orders with manufacturers who have modern CNC-machinery and production methods. Interested in cooperati
Technology facilities in company: Casting of non-ferrous metal ingots; Casting of plastics; Hardening

Number of employees: 6
Turnover in 2022 EUR: 352 358
Turnover in 2021 EUR: 371 879
Turnover in 2020 EUR: 4 146
Main markets: United Kingdom;
 Latvia; Estonia
Year of foundation: 2020

Business profile:

- Sheet metal cutting with fibre laser. We work with stainless steel, mild steel, aluminium, with a sheet size up to 3000x1500mm, and thickness up to 20mm.
- Bending of sheet metal parts for medium and large orders up to 3000mm and 1600kN.
- Certified TIG/MIG welders. Welding of various levels of complexity.
- Modern production equipment and strict quality control.
- Equipment known for high quality and accuracy.
- Efficient production system and a team of experienced experts
- Careful processing of each order and recommendations for better result.
- Engineering services.
- Wide network of dependable cooperation partners that are able to provide a full range of metalworking processes

Looking for cooperation in the area of: Business profile
Technology facilities in company: CNC Laser cutting; Sawing; Sheet metal bending; MIG/MAG welding; Shield-metal arc welding; TIG welding
Certificates in use: EN 1090-1; EN 1090-2

LATSTAB is a modern, dynamic Latvian company, whose main commercial activity is to manufacture wide range of steel products for a variety of civil engineering-related areas.

Business profile:

- street lighting poles (conical, octagonal, tubular, hinged);
- contact line poles for electric mains;
- high masts with mobile crowns, fixed platforms etc.;
- met masts, steel lattice sections (guyed lattice or self-supporting lattice modules);
- steel constructions;
- anchor foundations, pile head plates, base grillages, screw piles for different types of applications.

Looking for cooperation in the area of: Highway, road and street construction, railways, renewables, telecommunications

Technology facilities in company: Chemical composition tests of metal; CNC Laser cutting; Sawing; CNC plasma cutting; Turning; CNC turning; Milling; CNC milling; Surface grinding; Cylindrical grinding; Sheet metal bending; CNC Sheet metal bending; Roll bending; Tube bending; Shot blasting; Wet painting; Powder coating; Electrolytic galvanizing; MIG/MAG welding; Robot welding; Non-destructive tests (NDT); Design services CAD

Year of foundation: 1993

Business profile: Company's core business is designed and producing home, garden and catering appliances for smoking fish, meat, chicken, cheese and vegetables. Our smokehouses are ideally suitable for various locations: garden, terrace, holiday house or camping site (easy to build-in or place on a pedestal). The technology developed by us ensures excellent temperature and air circulation control, which guarantees the highest quality end-result even in harsher weather conditions. We offer professional, yet affordable smoking solutions for everyday private usage and also catering. The company developed additional products, such as equipment ensuring cold smoking possibility and an electric smokehouse

Looking for cooperation in the area of: Representative dealers and DIY store chains

Technology facilities in company: Sawing; CNC plasma cutting; Turning; Milling; Sheet metal bending; CNC Sheet metal bending; Tube bending; Powder coating; MIG/MAG welding; TIG welding; Spotwelding

Main markets: Germany; United Kingdom; Latvia; EU; Norway; Sweden; Denmark; Finland; France
Year of foundation: 2000

Business profile: Production of metal structures according to client's sketches; design & innovation, metal furniture & decor, bicycle & bike parts manufacturer, metal constructions for marine & offshore, oil & gas, windmills & crane structure, automotive & agriculture, woodworking machinery, building industry installation of metal and glass construction. Fitting of castings: cleaning, grinding, polishing, welding, heat treatment, shotblasting and CNC machining service for casting; painting & coating, assembling services
Looking for cooperation in the area of: Subcontracting or general contractor – on our factory floor, in the shipyard or on-board, oil & gas platform; manufacturing of steel structures; metal construction; metal processing according to customer drawings; welding services (MIG/MAG, TIG, MMA – ISO)
Technology facilities in company: Iron casting; Sawing; CNC gas cutting; CNC plasma cutting; Surface grinding; Cylindrical grinding; Sheet metal bending; CNC Sheet metal bending; Roll bending; CNC roll bending; Tube bending; CNC tube bending; Shot blasting; Wet painting; Barrel finishing, tumbling; Polishing, buffing; Hardening; Shield-metal arc welding; MIG/MAG welding; TIG welding; Spotwelding; Robot welding; Mechanical property tests of metal; Non-destructive tests (NDT)
Certificates in use: ISO 9001; EN 1090-2; Welding Certificate

Turnover in 2020 EUR: 5 600 000
Main markets: Germany; United Kingdom; EU; USA; Norway; Sweden; Finland; Netherlands
Year of foundation: 2010

Business profile: Electrical transformer tanks with conservators, fabrications for Military industry, Production of conveyors for different material handling, enclosures, tanks, mining equipment, coolers for power generators, chassis, car transporter components, agricultural equipment, different other welded steel fabrications. Max. overhead lifting capacity – 30 t

Looking for cooperation in the area of: Welded steel fabrications - MIG/TIG welding, production of equipment against customer drawings, including final assemblies and testing, production of stainless steel structures, drilling, tapping, blasting, painting, assemblies, relatively large in size And weight fabrications/enclosures

Technology facilities in company: CNC Laser cutting; CNC punching (perforating); Sawing; CNC milling; CNC turning; Milling; Turning; CNC roll bending; CNC Sheet metal bending; CNC tube bending; Roll bending; Shot blasting; Thermal spraying (metalizing); Wet painting; Non-destructive tests (NDT); MIG/MAG welding; TIG welding

Other technologies, not mentioned in technology table: 3D dimensional scanning

Certificates in use: ISO/IEC 80079-34:2011 (Directive 2014/34/EU, Annex IV); ISO 9001:2015; ISO 50001:2018 ; ISO 14001:2015; ISO 45001:2018; EN ISO 3834-2:2006; EN 1090-2:2018

SFM Steel Fabrication Manufacturer

WELDED STEEL FABRICATIONS – FULL PRODUCTION CYCLE INHOUSE

CNC Laser cutting
 CNC Sheetmetal bending
 CNC Milling Sheetmetal rolling
 CNC Tube bending Welding
 CNC Turning Painting
 Assembling Shotblasting

“Build to print” subcontractor in welded steel fabrications for machine building and industrial equipment.

OUR CONTRACTS

- ✓ Military vehicle components
- ✓ Transformer tanks
- ✓ Chassis for mining industries
- ✓ Industrial Mixers
- ✓ Conveyor systems for bulk materials
- ✓ Agriculture equipment
- ✓ Lumber handling equipment
- ✓ Hydraulic tanks
- ✓ Enclosures
- ✓ Coolers for power generators

Year of foundation: 2005

Business profile: We design and manufacture grain handling equipment in our 8000 sq.m. large factory which is based in Lielvārde (50km from Rīga). Our main products: grain conveyors, dryers and accessories. We provide equipments' capacity from 20 to 500 tons per hour and we export our products to 18 different countries. We focus on high quality and provide sales & technical trainings to our dealers in developed Competence Centre
Looking for cooperation in the area of: You are kindly welcome to become our dealer and sell PRECO grain handling equipment in your country. We are Partners you can rely on
Technology facilities in company: Shearing; CNC Laser cutting; Sawing; CNC punching (perforating); Turning; Milling; Sheet metal bending; CNC Sheet metal bending; Shot blasting; Wet painting; Shield-metal arc welding; MIG/MAG welding
Certificates in use: ISO 9001:2015; EN 1090-2:2018; Welding Certificate

**ENGINEERING PROBLEMS REALIZATION COMPANY**

TRIZ is a 31-years old company of qualified specialists in machine-building (compressor, turbine and pump units). Nowadays TRIZ possesses its own engineering department, manufacturing division of mechanic and thermal metalworking, assembly and balancing site.

The company is licensed to perform work in chemical, oil and gas industries in projecting, repair, modernization, author's supervision, diagnostic of the dynamic equipment, its separate assemblies.

The main products: rotors and flow parts of centrifugal compressors and pumps, damping journal and thrust bearing, flexible couplings, labyrinth, lunc and floating end seals, details due to the customer's drawings.

The main service: modernization, reconstruction, repair and complex service of the dynamic equipment. TRIZ's products have a trade mark and more than 200 patents. Engineering solutions possess a modern scientific level with accordance to API standards.

TRIZ with its huge potential is ready to solve any tasks in calculations, manufacturing, modernization to improve performance and reliability of the dynamic equipment.

Business profile: VRV METAL is a wholesale company which focuses on the sale of expanded and perforated metal sheets and rolls for industrial and architectural applications, with delivery to the Baltic and Scandinavia. Main products as expanded and perforated metals, woven/crimped and welded nets
Certificates in use: ISO 9001; ISO 14001

VRV METAL

VRV METAL is a wholesale company which focuses on the sale of expanded and perforated metal sheets and rolls for industrial and architectural applications, with delivery to the Baltic and Scandinavia.

BENEFITS

- Competitive prices
- Delivery of products directly to the customer
- Production of material meeting customer requested size
- All technical information about the product is available
- We issue samples of materials
- A wide range of suppliers, which facilitates provision for large projects in the shortest possible time

EXPANDED METALS SHEET SIZES

- 1000 x 2000 / 1250 x 2500 / 1500 x 3000 mm – as standart
- Up to 2400mm as width under request!

PERFORATED METALS SHEET SIZES

- 1000 x 2000 / 1250 x 2500 / 1500 x 3000 mm – as standart
- Up to 2000mm as width under request!
- Up to 6000m as lenght under request!

WELDED / WOVEN / CRIMPED NETS SHEET SIZES

- 1000 x 2000 / 1250 x 2500 / 1500 x 3000 mm – as standart
- Up to 2000mm as width under request!

SSAB Laser® OPTIMIZED FOR YOU

- ▶ Superior steel cleanliness
- ▶ Optimized and consistent chemistry
- ▶ Narrow and consistent dimensional tolerances
- ▶ Properties always exceeding EN standards
- ▶ Enhanced impact toughness at low temperatures
- ▶ Optimized surface quality for laser cutting
- ▶ Tight nesting with shared cutting lines
- ▶ High quality cut edges even at high cutting speeds
- ▶ Flatness deviation of cut parts ≤ 3.0 mm/m
- ▶ Predictable and repetitive performance in cold forming
- ▶ Same bending guarantees for all directions
- ▶ Inner bending radius 0.0 x thickness for MC Plus grades

DUROC

MACHINE TOOL

Duroc Machine Tool

var palīdzēt nodrošināt veiksmīgu ražošanas procesu!

Duroc Machine Tool piedalās visos iekārtas iegādes un ekspluatācijas procesos, sākot ar pirmajām konsultācijām, finansējuma izvēli, beidzot ar uzstādīšanu, servisa apkopēm, remontiem un rezerves daļu pasūtīšanu, kā arī pastāvīgu apmācību nodrošināšanu jūsu darbiniekiem.

Izvēloties iekārtas vai automatizācijas aprīkojumu, ļoti svarīgi sagatavot skaidru rīcības plānu, kad rodas kļūmes un ražošanas process apstājas. Šādos gadījumos ir lieliski apzināties, ka kvalificētākie profesionāļi nozarē vienmēr ir gatavi jums palīdzēt rast risinājumu!

Vienmēr esam gatavi jūs uz klausīt!

Number of employees: 4
Turnover in 2022 EUR: 1 346 414
Turnover in 2021 EUR: 1 084 247
Turnover in 2020 EUR: 864 571
Main markets: Latvia
Year of foundation: 2006

Business profile: Our mission is to empower people and manufacturing companies to innovate. We do that by digitally transforming your entire value chain, integrating every stage of the product lifecycle from design to aftermarket. Our intuitive solutions like SOLIDWORKS and 3DEXPERIENCE generate 3D capabilities to design, manufacture, deliver and service better products, faster and more cost-effectively. Our 3D Printing division co-operates with world-leading additive manufacturing companies, allowing us to provide our customers with the latest and greatest technologies. We offer software trainings and consultancy to help your employees be more efficient in their everyday work
Looking for cooperation in the area of: Manufacturing, design, construction
Technology facilities in company: Design services CAD; Rapid prototyping; Metal 3D printing
Other technologies, not mentioned in technology table: SOLIDWORKS, 3DEXPERINCE, SIMULIA, ABAQUS. Leading provider of 3D printers from 3DSystems, HP and Markforged. 3D scanners from Peel 3D and postprocessing equipment from DyeMansion

ZETA INDUSTRY

Number of employees: 1
Main markets: Latvia; Lithuania
Year of foundation: 2014

Business profile: PBS LV is a daughter company of Progressive Business Solutions in Lithuania. We concentrate on development, investment and M&A of manufacturing companies by offering Industry 4.0 solutions for manufacturing companies. Monitor ERP - a Swedish manufacturing planning and business management system for industrial companies with more than 40 years users experience. It is a perfect tool and ready system to optimize manufacturing companies and level them up to the high efficiency level. We offer machines for metalworking companies with those brands like Bystronic, BLM Group, Adige, Cidan Machinery, Weland Solutions, Sodick and others
Looking for cooperation in the area of: Implementation of industry 4.0 solutions and process optimization

PBS Progressive Business Solutions

WE SET UP and develop manufacturing companies

monitor
ERP SYSTEM

Manage production processes, keep everything in **ONE PLACE**

- More than 40 years of experience;
- More than 4000 customers;
- 100% for manufacturing companies;
- Simple and quick installation with a user-friendly working environment.

We sell **WORLDCLASS** equipment for Metalworking industry

- Equipment for cutting, bending and machining;
- Automation and enhanced solutions to the Smart Factory;
- Installation, maintenance and training.

TehnoBuss

MASOC has been implementing the TehnoBuss project since September 2015, with the aim of generating interest in engineering sciences in school youth and informing them of opportunities for learning, study and career development in the industry.

TehnoBuss is a mobile demonstration laboratory built on the bus platform, which is equipped with modern, full-function technological stands, equipment and tables for automated processing of various materials, which school youth can not only look at during classes, but also try themselves.

This year is the eighth season of TehnoBus, and so far it has taught classes in 415 schools in all regions of Latvia and can be proud of a total of more than 44,000 student visits.

TehnoBuss focuses on the enhanced promotion of co-operation between educational institutions, employers and young people, this is why we call for the cooperation of educational institutions, and other stakeholders who support and are interested in promoting the interest of young people about education and professional career path in engineering.

Additionally "Tehnobuss" cooperates with partners and takes part in exhibitions, regional events and career choice-related events such as Tech Industry, "Metāla dienas" in Jelgava, creativity and technology festival iNOVUSS by the Investment and Development Agency in Latvia, festival SkillsLatvia by the State Education Development Agency of the Republic of Latvia. SkillsLatvia 2019, etc., has been involved in several European Union Erasmus+ program projects together with Estonian and Lithuanian colleagues, as well as participated in several summer camps organized for students.

Ar mērķi radīt skolu jaunatnē interesi par inženierzinātnēm, informēt tos par mācību, studiju un karjeras iespējām nozarē, MASOC jau kopš 2015. gada septembra īsteno projektu TehnoBuss.

TehnoBuss ir uz autobusa platformas izveidota mobila demonstrāciju laboratorija, kura ir aprīkota ar mūsdienīgiem, pilnas funkcionalitātes tehnoloģiskajiem stendiem, iekārtām un dažādu materiālu automatizētas apstrādes darba galdiem, kurus skolu jaunieši nodarbību laikā var ne vien aplūkot, bet arī paši izmēģināt.

Šogad rit astotā TehnoBusa sezona, un līdz šim tas ir pasniedzis nodarbības 415 skolās visos Latvijas reģionos un var lepoties kopumā ar vairāk nekā 44 000 skolēnu apmeklējumiem.

TehnoBusa darbība ir vērsta uz ciešākas sadarbības veicināšanu starp izglītības iestādēm, darba devējiem un jauniešiem, tādēļ aicinām uz sadarbību mācību iestādes un citus interesentus, kuri atbalsta un ir ieinteresēti veicināt jauniešu interesi par izglītību un profesionālo karjeras ceļu inženierzinātnēs.

Tehnobuss arī sadarbojas un regulāri piedalās izstādēs, reģionālos pasākumos un karjeras izvēles rīkotajos pasākumos kā Tech Industry, "Metāla dienas" Jelgavā, LIAA Jaunrades un tehnoloģiju festivāls iNovuss, VIAA SkillsLatvia 2019 u.c. SkillsLatvia 2019 u.c. iesaistījies vairākos Eiropas Savienības Erasmus+ programmu projektos kopā ar Igaunijas un Lietuvas kolēģiem, kā arī piedalījies vairākās jauniešiem rīkotajās vasaras nometnēs.

Located in Northern Europe, with access to consumers in the EU and the CIS, Latvia boasts a premium class infrastructure and connectivity, a lenient tax regime and competitive business costs.

LIAA: A ONE-STOP-SHOP FOR FOREIGN INVESTORS AND BUYERS

Considering or starting a business in Latvia? Then, the Investment and Development Agency of Latvia (LIAA) will be your first point of contact and a one-stop shop to create your success story.

WHAT DO WE OFFER?

Investment Facilitation

- Information on business opportunities, investment incentives and the best real estate options
- New contacts to start a business
- Legal assistance with start-up procedures

Suppliers' Searches

- Information on Latvian exporting companies, products and services, search of suppliers
- Reaching out to Latvian companies, introducing to your business proposal
- Seminars and trade missions to/from Latvia

Information on foreign markets for enterprises in Latvia

- Assistance at fairs and trade missions, export promotion campaigns and B2B matchmaking
- Data on workforce availability and skill evaluation

State Support Programmes

- A wide range of support programmes to start and grow your business
- Information on the EU common market, policies, legislation, regulations and trading systems

Foreign representatives

- Offices in 20 countries provide information on all you need to know about business in Latvia
