

WHAT IS VALPRO?

VALPRO is one of the Baltics leading export companies exporting 96% of its manufactured products to more than 34 countries directly in last 60 years. The company specializes in the production of metal fuel cans (2l, 5l, 10l, 20l) and their accessories, such as pouring spouts, holders etc., as well as carbon steel and stainless-steel cylinders for fire extinguishers, extinguishing and other systems. VALPRO also provides cylinder inspection services for High pressure cylinders, Aluminium 0,6 liter CO2 gas cylinders and Liquefied Petroleum gas (LPG) cylinders.

HOW WE DO THAT?
