

Baltic Metalworking Group

Baltic Metalworking group is strong, growing company, which dedicated to providing metalworking services and metal constructions.

At BMG, we keep a clear focus on our customer's needs, manufacturing parts efficiently, on time, to exact specifications. We take pride in our history of reliability and business integrity, having built relationships with many long-term customers who appreciate our commitment to exceptional service and delivery.

Mr. Oleg Horoneko , CEO

"From the beginning, we at BMG have worked hard to build a reputation as a metalworking source that is dependable in both: product and customer service!"

MAIN WORKSHOP DATA:

Total area: 1800 m²

Ceiling Height:

CNC workshop - 4.6 m

Welding/Heavy machining - 6.0 m

Lifting Capacity:

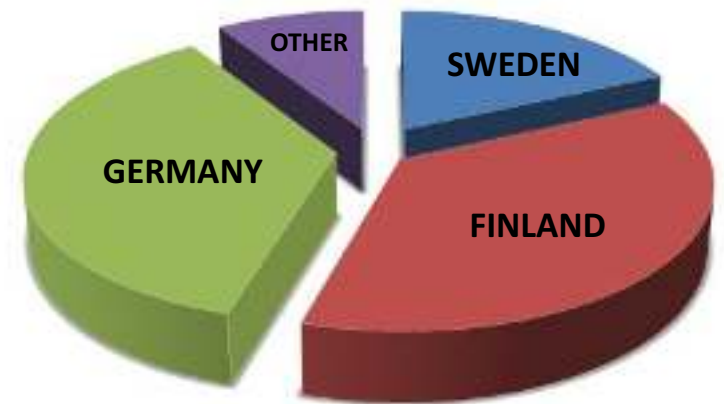

CNC workshop - 2.0 t

Welding/Heavy machining - 6.2 t

MAIN SERVICES:

- « CNC machining
- « CNC Multi-axis
- « Heavy machining
- « Welded metalware
- « Welding
- « Design
- « Heat treatment
- « Coating
- « Assembling

EXPORT MARKETS

CNC workshop is equipped with high-class machines and top software.

LAGUN GBM 42 E

Travel (X/Y/Z) 4000 / 1200 / 1500 mm
Table size 4200 x 1000 mm

WAGNER EBM 2150

Travel (X/Y/Z) 2150 / 1400 / 1100 mm
Table size 2200 x 1220 mm

MAZAK QUICK TURN NEXUS 250-II M - 1000

Maximum machining diameter 350 mm
Maximum machining length 982 mm

MAZAK VERTICAL CENTER NEXUS 510C-II

Travel (X/Y/Z) 1050 / 510 / 510mm
Table size 1300 x 550mm

HAAS VF-5

Travel (X/Y/Z) 1270 / 660 / 635mm
Table size 1321 x 584mm

MAZAK INTEGRIX 200 - IV S

5-axis turning - milling center
Maximum machining diameter 660 mm
Maximum machining length 995 mm

SOFTWARE

SolidWorks / MasterCAM

HEAVY MACHINING WORKSHOP

« Machining diameter till 1600 mm

« Machining length till 8000 mm

« Boring length till 6000 mm

Turning lathe

Maximum machining diameter 1580mm
Maximum machining length 6000 mm

Turning lathe

Maximum machining diameter 1300 mm
Maximum machining length 8000 mm

- « Metalware welding from customers drawings.
- « Metalware welding from customers drawings which are developed with a help of our designers.

- « Welded Metalware and Constructions up to 6.2 t
- « Plate, Pipe, tube and profile bending, rolling.
- « Internal NDT facilities: PT / Dye Penetrate Test, VT / Visual_Test (ISO 5817)
- « Sandblasting room, max part size: 6m x 4m x 3m, up to 3.5 t weight.
- « Coating room, max part size: 5m x 2.5m x 2.5m, up to 5 t weight.

Additional services:

- « Heat treatment workshop
- « Metal cutting workshop
- « Assembly
- « Tooling
